#### Collaboration Subcommittee –

Group will work on how to help community groups collaborate rather than duplicating services. This may include first figuring out what are all of the groups that working in this field. Examples given are treatment centers, IU schools i.e. nursing, local health department, people with lived experience, community connection groups, mental health services, Justice Reinvestment Advisory Council, and more. This is a process group that will make a list of the stakeholders and figure out how everyone can know what is happening.

#### Resource Group –

Initial Description of Group: Research and have a greater understanding of the resources that are available so that this can be better communicated to the community. Items brought up to consider: adding information to find help, education on find help, ensure providers are using find help, updating resource list and find way to not duplicate this work, advertise resources, consider how parks and rec and utilize findings.
