Notary Certificates

A notarization is not complete without a proper notarial certificate. A notary should NEVER simply stamp a document with their seal.

The notarial certificate is a written statement, signed and sealed by the notary public, certifying the facts of a notarial act. Different notarial acts require their own unique certificate wording.

Notaries public should never take it upon themselves to select or substitute a certificate on behalf of a person. However, a notary public is free to have the client review the types of certificates and allow them to choose the one they feel is correct.
