# OFFICE OF COURT ADMINISTRATION

## INTRODUCTION

Each day more than 1,000 people enter the Justice Building to file a complaint, pay traffic or probation fees, gather information about a case, or serve as a lawyer, petitioner, defendant, witness or juror to a trial. The increasing complexity of life and the scope of litigation in the United States have created a non-judicial administrative burden on the courts that the judges and traditional court staff cannot handle alone. The Office of Court Administration, under the guidance of the Board of Judges, provides administrative support for the Circuit Court. The office is responsible for the daily operations in financial management, security management, jury management, case management and court support programs. The Office of Court Administration staff reviews system operations, analyzes management problems, recommends solutions to the judges, and implements efficient change. In 2023, the Office of Court Administration successfully implemented the following administrative programs and procedures.

## FINANCIAL MANAGEMENT

Thirty-Seven budgets totaling a little over **\$12.1 million** were prepared, monitored, and analyzed by the Office of Court Administration. Fiscal management of these budgets includes the preparation of the payroll for over 130 employees, the monitoring of grants received on federal, state, and local levels, and the procurement of office furniture, supplies and equipment. The following is a 2023 summary of the funding sources, the amount and types of generated revenue, and the budget and expenditures for the Monroe Circuit Court.

### **I. FUNDING SOURCES**

The Monroe Circuit Court receives funds from the following sources:

- (1) Tax Revenue: Provides funds for personnel, computers, capital outlays, supplies and operating expenses for the Court.
- (2) Program Fees: Provides funds generated by case filings, court costs, fines, infraction judgments, support fees, user fees and investment interest.
- (3) Grants/Contracts: Awarded by the State of Indiana for Community Corrections, Supreme Court Grant, CARES Grant, Interpreter Grant, Title IV-D reimbursement; Drug Court Grant awarded by the US Dept. of Justice/Office of Justice Programs, JDAI, Family Court Project, Veterans Court Grant, Court Reform Grant, Mental Health Court Grant, Community Transition Program, Pretrial Programs, Alternative Dispute Resolution.

**Tax Revenue for Courts:**

COUNTY GENERAL	<b>\$6,969,369</b>
Juvenile LIT (formerly COIT)	<b>\$1,398,290</b>
Public Safety LIT	<b>\$745,169</b>

**Program Fees:**

Probation User Fees	<b>\$654,155</b>
---------------------	------------------

**Grants/Contracts:**

Federal/State Grants/Contracts	<b>\$1,989,410</b>
Title IV-D Court Reimbursement	<b>\$180,333</b>
State Interpreter Grant (Court)	<b>\$12,000</b>

**Jury Pay Fund**

**\$20,163**

**TOTAL** **\$11,968,889**

## SECURITY MANAGEMENT

Violence in this country, and our county is on the rise and concomitantly, there have been recent tragic events involving the Judiciary within court facilities. Judges, bailiffs, witnesses, lawyers, parties, and the general public have been vulnerable to bombs, armed attack, and hostage situations. Inadequate courtroom security or the absence of security has been identified as causative factors. By Order of the Court, all firearms, dangerous weapons, and destructive devices are prohibited from being in the Justice Building. To take preventive measures, the Office of Court Services employs bailiffs, who are trained in handling weapons, bombs, and serious threats, to be present in the courtrooms. In 1995, the County installed a magnetometer and X-ray machine at the entrance of the Justice Building. The implementation of this comprehensive security plan has insured the safety of litigants and other citizens conducting business in the Justice Building.

In 2023, the Monroe Circuit Court Bailiffs, in addition to their regular responsibilities of security, provided an enhanced level of security in 715 Protective Order Hearings, and 3 Non-Medical Incidents. Due to the majority of juvenile hearings going zoom, Juvenile Detention Hearings have significantly decreased. Bailiff's provided security to only 27 in person Juvenile Detention Hearings in 2023. They responded to 6 separate Medical Incidents experienced by members of the public and employees at the Justice Building. The bailiffs also booked 131 offenders into the Monroe County Jail as the result of either a judicial remand of custody or the service of a warrant, which has increased from years past.

## JURY MANAGEMENT

The goal of the Office of Court Services is to maximize efficiency while minimizing jury system costs and inconvenience to citizens summoned for jury duty. In 2023, prospective jurors' names were randomly selected from the Bureau of Motor Vehicles and Department of Revenue lists for Monroe County. The master list contained 2,625 names and addresses. These citizens receive a juror summons for a one-month term of service. In 2023, a total of 567 citizens reported for jury duty; and 23 percent of them served on juries. By state law, a juror received \$15.00 per day for reporting for jury service and \$40.00 per day if sworn as a member of a jury prior to July 1, 2023, after July 1st, jurors received \$30.00 per day for reporting and \$80.00 per day if sworn as a member of a jury. All received \$.49 per mile to and from the Justice Building. Prospective jurors are called one time within their one-month term of service and if empaneled to serve on a jury, their service lasts around two or three days. In 2023, the average cost per trial was \$3,428.10.

In 2023, there were 13 jury trials held in Monroe Circuit Court. Of these, 46% involved felony offenses, 15% involved Murder offenses, 0% involved misdemeanor cases and 38% involved civil cases.

## CASE MANAGEMENT

The Office of Court Administration monitors case assignments to ensure the equity of caseload between judges and provides the judges with case management information in order to reduce case delay. Case statistics are provided to the State Court Administrator's Office quarterly and analyzed by the Office of Court Administration to determine case management trends and growth of judicial workload. With the assistance of an automated case tracking system, information is available for assisting the judges, court support staff and the public more efficiently.

In 2023, 30,748 cases were before the Monroe Circuit Court. These included previously pending cases, new filings, reopened cases, and venued-in cases from other counties. Fifty-six percent (56%) or 17,285 of these cases were new and venued-in cases and the remaining were reopened and previously pending cases. Reopened cases are defined as cases redocketed for further action, such as proceedings supplemental to collect money judgments, petitions to modify child custody, support or visitation, and modifications of criminal sentences. The cases included criminal, civil, domestic, protective orders, small claims, juvenile, probate, mental health, ordinance violations and infractions. The nine courts disposed of 20,827 cases in 2023.

**Infractions:** The staff of the Clerk and Prosecutor's Office manages infraction cases. Most of the traffic cases settle prior to court. Diversion programs are established for first time offenders. If programs are violated, infraction cases are assigned to the judges. There were 1013 previously pending cases and 4,822 new infraction cases filed in 2023. Approximately 2% were assigned to the judges.

**Ordinance Violations:** The City Attorney and staff of the Clerk's Office manage ordinance violation cases. Due to new collection procedures adopted by the City of Bloomington in 2012, the number of cases filed has declined significantly. There were 12 previously pending cases and 94 new ordinance violations filed in 2023.

**Case Assignment per Court:** Considering the number of cases pending, new filings, redocketed cases, infractions and ordinance violations filed with the Court, the average number of cases collectively assigned to the nine divisions for 2023 was 3,416.

## Case Filings and Dispositions: Criminal and Civil

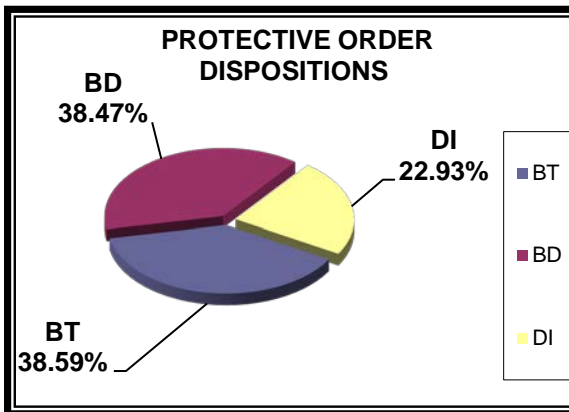

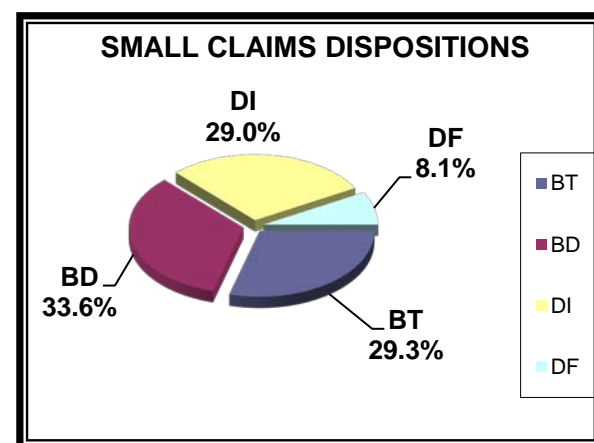

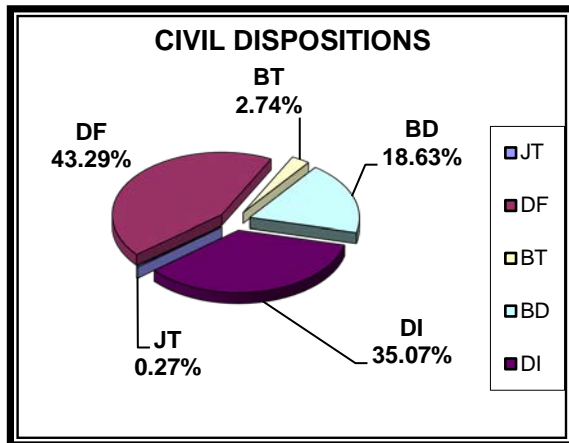

During 2023, the Monroe Circuit Court consisted of nine divisions. Four divisions were randomly assigned criminal cases. Civil, Domestic Relations, Juvenile and Probate cases were randomly assigned to five other divisions. New filings increased slightly for Felony, Criminal Misdemeanor, Civil and Eviction filings while decreasing for Small Claims and Domestic Relations. Disposition rates for Felonies, Small Claims, Evictions, Domestic Relations, and Protective Orders increased for 2023, while disposition rates for Criminal Misdemeanor and Civil cases decreased.

This was the third year for the new Eviction case type.

The following pie charts show how the new case filings were disposed in 2023.

**Juvenile and Probate:** Juvenile and Probate cases include civil commitments of mentally ill, the processing of estates and trusts, adoption of children, the establishment of paternity of children born out of wedlock, juvenile delinquency, and CHINS (Children in Need of Services). CHINS cases involve the abuse and neglect of children. All cases are disposed by bench trial, bench disposition or dismissal.

The two-year graph to the left shows Juvenile and Probate new filings in 2022 compared to new filings in 2023.

New filings for Juvenile Chins, Juvenile Miscellaneous, Trusts and Guardianships have increased for 2023 and have decreased for all other case types. Redocketed cases have increased for Mental Health, Adoptions, Guardianships, Juvenile Paternity, Juvenile Miscellaneous and Juvenile Delinquencies. Redocketed cases decreased in 2023 for all other case types.

## MONROE COUNTY FAMILY COURT

Monroe County was selected in February, 2000 as one of three pilot counties for the Indiana Supreme Court's Family Court Project. The initial funding for Family Court was received under a two-year grant from the Indiana Supreme Court, Division of State Court Administration. The Monroe County Family Court has continued its services to families in the legal system beyond the pilot project phase. Family Court operated under the administration of Division IV of the Monroe Circuit Court in 2023.

### **The Monroe County Family Court has identified the following programming components as vital to the project:**

I. Mediation: The Family Court Mediation Clinic was created in 2002 at the request of Judge Viola Taliaferro. In August, 2002, the Family Court Coordinator began collaborating with the Child Advocacy Clinic of the Indiana University School of Law, and the Community Conflict Resolution Project (CCRP) to develop a method of resolving custody, visitation, and related disputes that arise within the context of paternity cases. It was envisioned that law students and other participants could be trained to provide mediation services on a volunteer basis in the paternity court. Implementation of the project began in January, 2003. This highly successful program was greatly expanded in August, 2003 to include divorce cases involving child custody and parenting time issues. Low to moderate-income families are eligible to participate in the mediation clinic if they are unable to afford private mediation services. The collaborators in the development of the Mediation Clinic believe that the children affected by these cases will best be served by providing a forum for parents to actively negotiate parenting arrangements that protect the child's best interests.

The Family Court Mediation Clinic now handles all types of disputes that may arise within the context of family law cases referred by the Court. Parties may also be referred to mediation for assistance with specific issues identified by the Court, such as completing a parenting time schedule, calculating child support, and developing co-parenting communication skills. Parties receive information and education to better understand the court process, the Indiana Parenting Time Guidelines, and the Child Support Rules and Guidelines. The Family Court Coordinator also receives referrals from the court to assist parties in providing more complete and accurate pleadings and information to the court in order to expedite their cases.

In March of 2005, the **Family Court Mediation Clinic** implemented the **Domestic Relations Alternative Dispute Resolution Fund Plan** of the Monroe Circuit Court. This plan operates under the provisions of Indiana Code 33-23-6-1 to -4. An additional twenty-dollar filing fee is collected from parties filing petitions for legal separation, paternity, or dissolution of marriage. The fee is deposited into the alternative dispute resolution (ADR) fund and is used to foster domestic relations ADR services for litigants who have the least ability to pay. Litigants receiving services covered by the fund make a modest co-payment for the services based upon the litigant's ability to pay.

The Family Court Coordinator serves as mediator for the Family Court Mediation Clinic. In 2023, 126 new referrals for services were received through this program: 117 families were

assigned to the Family Court Coordinator. Nine families were assigned to a contractual mediator or parenting coordinator. By the end of 2023, more than three thousand families had been referred to the program since its inception.

II. Counsel in the Court (Pro Se Assistance): The District 10 Pro Bono Project began providing on- site services for self-represented parties at the Justice Building in 2010. The weekly walk-in clinic is known as “Counsel in the Court.” The District 10 Pro Bono Project coordinates attorney volunteers who provide limited assistance to parties in completing forms and pleadings for family law case types. In 2023, District 10 reported 88 attorney-client conferences were conducted through this program for Monroe County.

III. Investigation Services: Judges making decisions regarding child custody and parenting time can receive the assistance of an experienced investigator who will gather the necessary information to help the judge make a well-informed decision regarding the child’s best interests. The Juvenile Division assists the Civil Division of the Court by conducting investigations in divorce and paternity to provide the Court with information regarding parents and their children. Examples of the information that could be included is information about the child’s school or living environment. In 2023, the probation department did not receive any new referrals for investigations in family law cases.

## **COURT SUPPORT PROGRAMS**

### **CASA**

The Monroe Circuit Court has contracted with Family Service Association of Monroe County to provide volunteer Court Appointed Special Advocates to represent the best interests of children involved in CHINS cases.

### **GUARDIAN AD LITEM**

The child advocacy clinic of the IU School of Law, opened in the Spring of 1996 to train law students to represent the best interests of children as guardian ad litem in custody and visitation cases.

### **PSYCHOLOGICAL EVALUATIONS**

The Center for Behavior Health, by order of the Court, performs psychiatric evaluations on defendants to determine mental sanity at the time of the alleged offense, the defendant's comprehension to stand trial and assist in own defense, the defendant's ability to comprehend punishment for the crime at the time of sentencing, the defendant's need for treatment prior to sentencing, or the defendant's mental/emotional status while incarcerated. The Center for Behavioral Health performs these services at no cost.

### **MEDIATION**

Parties recognize that litigation can be a long, tedious and expensive process for resolving disputes. At any time during the case process, the court can order, or one or both of the parties can request, that the case be settled by mediation. Mediation is a negotiation facilitated by an acceptable, impartial and neutral third-party who works with the parties to reach a mutually agreeable settlement to the dispute. The Office of Court Services maintains a list of State certified civil and family mediators.

### **AMERICAN WITH DISABILITIES ACT**

The ADA requires that the courts perform an assessment of their facilities, programs and services and eliminate both architectural and communication barriers that impede a disabled person's access to the use of a court facility. The courts must "reasonably accommodate" disabled individuals. The Office of Court Services, upon request, provides auxiliary aides to disabled individuals and will consider alternative methods of making court services and programs more accessible

# CHIEF'S REPORT

*By Linda Brady, Chief Probation Officer*

The Monroe Circuit Court Probation Department (hereafter “Department”) will remember the year 2023 for continuing to adjust to unprecedented staff turnover post-COVID-19 pandemic. Despite staffing challenges, the Department continued to be involved in research projects and implementing changes for the benefit of our clientele.

The year 2023 started with five (5) probation officer vacancies, two (2) field officer vacancies, and one legal secretary vacancy. Several of those full-time positions were vacant 4-5 months. As of March 2023, all full and part-time positions in the Department were filled for the first time in nearly three (3) years. However, the Department was fully staffed with all positions filled for only a three (3) week period. To combat staff turnover in County Government, the Monroe County Council instituted “retention bonuses” for full-time staff. It is difficult to determine the impact of the retention bonus as four (4) full-time probation officers and four (4) field officers left the Department in 2023. Full-time positions continued to be difficult to fill and the year ended with one (1) probation officer vacancy and one (1) field officer vacancy.

The overall COVID-19 environment contributed to 2020 new-case numbers being lower than 2019’s numbers. Decreases occurred in nearly all statistical areas including drug tests conducted, breath-alcohol tests conducted, and user fees collected. These decreases continued into 2021, 2022, and 2023.

Since 2019, the Department has been involved in the **Reducing Revocations Challenge (RRC)** funded by Arnold Ventures and guided by the City University of New York Institute for State and Local Governance. **RRC Phase I** tasked 10 jurisdictions across the country with determining prominent pathways that lead those experiencing community supervision toward revocation resulting in serving time in jail or prison. Late in 2021, the Department and research partners at Indiana University and George Mason University were chosen as one of only five (5) sites from the RRC Phase I to continue with **Reducing Revocations Challenge (RRC) Phase II**. The focus of Phase II is to use the knowledge gained in Phase I to advance policy and practice solutions to reduce revocations and maximize community supervision success while protecting public safety. For **RRC Phase II**, the research partners and Department received grant funding to implement the following strategies:

- (1) **Strategy 1: Increase fidelity to Motivational Interviewing (MI), Effective Practices in Community Supervision (EPICS), and Effective Case Planning.** In 2022, national trainer Melanie Lowenkamp from Core Correctional Solutions provided EPICS training to probation officers (POs). Some experienced POs chose to participate in self-paced EPICS training in 2022 through June 30, 2023. In 2023, Ms. Lowenkamp returned to present Advanced EPICS training to all POs in the Department.
- (2) **Strategy 2: Revise Standard Conditions of Probation.** The *Conditions of Probation Committee* was assisted by consultant Dr. Brian Lovins, Justice System Partners (JSP). In August 2023, the revised conditions of probation were implemented by the Monroe County Criminal Division judges.
- (3) **Strategy 3: Increase the use of incentives and earned early termination from probation supervision.** This area is a work in progress and will continue in 2024.

In 2023, Monroe County completed its 40<sup>th</sup> year of receiving grant funding from the Indiana Department of Correction. At the annual Indiana Association of Community Corrections Act Counties conference, our Community Corrections Program was recognized for its **40-year anniversary**.

The Problem Solving Court Program was accepted into the ***Building a Multi-Track Treatment Court Training*** in August 2023. The training was delivered by the National Drug Court Institute, *a division of the National Association of Drug Court Professionals*.

The Monroe County Juvenile Detention Alternatives Initiative (JDAI) continued work with the “*Race, Equity, and Inclusion Committee*” in 2023. The **Juvenile Division** participated in a **Racial Equity Impact Assessment (REIA)** through our JDAI in 2022. Juvenile probation officers began using this process of inquiry to assess our juvenile probation rules/conditions with assistance from JDAI facilitators from the state. The revised juvenile probation rules/conditions were completed in 2023 and are scheduled to be implemented in 2024. The goal of this effort is to create a more equitable youth justice system and improve outcomes for all youth.

Several JDAI partners from Community Justice and Mediation (CJAM) joined our JDAI Coordinator Christine McAfee and several JDAI Steering Committee members on a “road trip” to tour the **Peace Learning Center** to learn about their restorative justice programs.

In 2023, the **Court Alcohol and Drug Program** was **recertified** by the Indiana Office of Court Services (IOCS).

Deputy Chief Probation Officer Troy Hatfield received the *Order of Augustus Award* at the 2023 statewide justice services conference. The Order of Augustus is an annual award presented by the Probation Officers Advisory Board to an Indiana probation officer whose commitment and personal dedication have exemplified the ideals and philosophy of John Augustus, the undisputed “father of probation” in America. Troy is the third probation officer from our Department to win this award. Later in 2023, Troy also received the *Sam Houston State University Award*, presented by the National Association of Probation Executives.

## ADDITIONAL 2023 DEPARTMENTAL HIGHLIGHTS

- **Trust-Based Relational Intervention (TBRI) Consultations.** All POs in the Department continue to be trained in the use of TBRI. POs also continued to have the opportunity to participate in TBRI consultation sessions with consultant Amy Abell of Hope Alight until May 2023.
- **Swearing-in Ceremony.** A swearing-in ceremony was held in July 2023 for all newly hired staff members as part of *Probation, Parole, and Pretrial Awareness Week*.
- **State Fiscal Year (SFY) 2023-2024 Justice Partners Addictions Response Grant.** The Indiana Supreme Court awarded **\$60,000** grant to improve services and outcomes for inmates reentering the community from the Monroe County Jail. The grant funded a Recovery Coach (Centerstone employee) paid contractually via this grant.
- **2023 Indiana Supreme Court Grants:**
  - **Veterans Court Grant:** Indiana Supreme Court awarded funds for the salary and fringe benefits of a probation officer **\$71,903** for the calendar year (CY) 2023.
  - **Drug Court Grant (SFY 2023-2024):** Indiana Supreme Court awarded **\$9,998** for Problem Solving Court incentives, chemical tests, and participant transportation (bus passes).
  - **Pretrial Grant:** Indiana Supreme Court awarded **\$96,480** for CY 2023 to fund a pretrial probation officer and \$15,000 toward the salary and fringe benefits of a Public Defender.
- **GRAND TOTAL INDIANA SUPREME COURT GRANTS: \$178,381.**
- **FY 2023 – 2024 Juvenile Detention Alternatives Initiative (JDAI) Grant.** **AWARD \$70,000.**
- **FY 2023-2024 JDAI Bonus Grant.** The Indiana Department of Correction awarded our JDAI **\$62,042** bonus grant dollars, the third time Monroe County's JDAI has received a bonus grant.

**Monroe County Systems of Care** – Probation officer Jada Faith represented the Department at these monthly meetings.

## ***A NOTE ON THE 2023 ANNUAL REPORT***

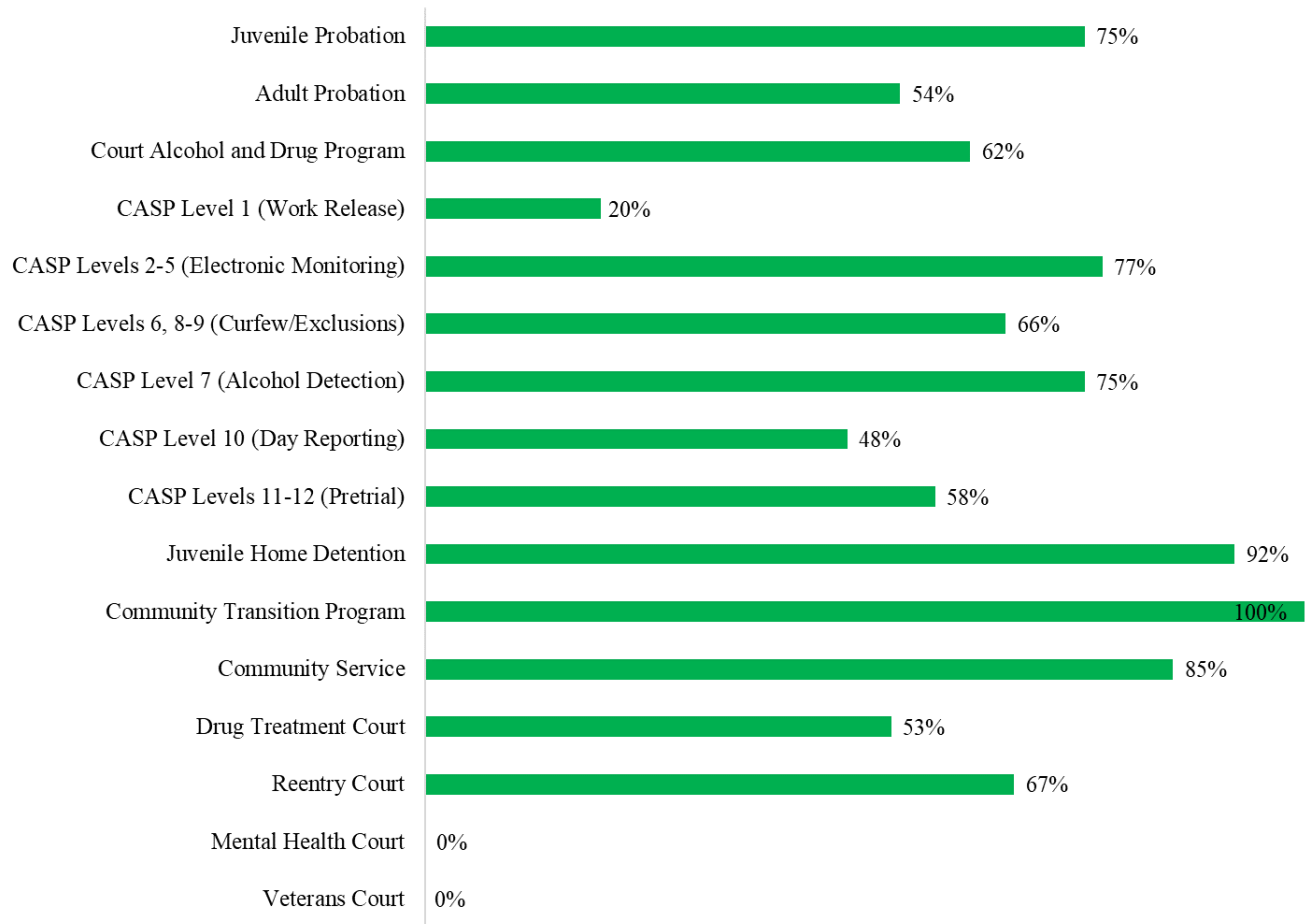

To better understand information in the tables contained in this report, the word “supervision” needs to be defined. A “supervision” is a community-based supervision requirement that an individual must fulfill as part of a court order. For example, one ‘supervision’ could be a term of probation and another ‘supervision’ could be a specified length of time on court-ordered home detention. One individual could be required to complete multiple ‘supervisions.’ These ‘supervisions’ could also be required in multiple cases where the individual could be convicted of multiple crimes. Thus, one individual could be referred to the Department in multiple cases and be required to complete multiple ‘supervisions’ in each of these cases. Though we will include the unique number of individuals referred to each program, for this year’s report, we will mostly focus on the characteristics of the supervisions.

## PROBATION DEPARTMENT EXECUTIVE SUMMARY 2023

- **2,183** - Individuals referred, supervised, monitored, and/or assessed (pre-COVID 2019 = 3,299; 2022: 2,080)

# ORGANIZATIONAL CHART

## STAFFING, FUNDING SOURCES, AND BUDGETS

The Department is funded by various sources including property and income taxes, user fees, and grants. As of December 31, 2023, the Department employed 81 persons, 56 of whom were probation officers (46 full-time line probation officers, 1 part-time probation officer, and 9 supervisory/management-level probation officers). Of the 56 probation officer positions, there was one (1) vacant full-time line probation officer position at the end of 2023. In 2023, five (5) probation officers (one part-time), four (4) Community Corrections Field Officers, one (1) support staff member, and eight (8) probation officer assistants left employment with the Department.

### 2023 Staff Summary (includes vacant full-time positions):

- 1 Chief Probation Officer
- 2 Deputy Chief Probation Officers
- 6 Probation Directors/Supervisors
- 46 Line Probation Officers and 1 Part-time Probation Officer
- 8 Community Corrections Field Officers (Community Alternative Supervision Program, Problem Solving Court)
- 8 Support Staff
- 10 Part-time Probation Officer Assistants

**TOTAL STAFF      81 employees (71 full time; includes vacancies)**

# FINANCIAL INFORMATION

## VICTIM RESTITUTION COLLECTED

The Department assists the court in collecting victim restitution by enforcing restitution orders. When a court places a person under the Department’s supervision, the person may be ordered to reimburse the victim for any loss incurred. Probation officers ensure that this money is paid by the probationers; however, restitution is collected by the Clerk’s Office and is disbursed directly to the victim. The following table indicates the amount collected and disbursed in victim restitution.

	2019	2020	2021	2022	2023
<b>TOTAL</b>	\$143,538	\$153,345	\$170,713	\$131,598	<b>\$154,262</b>

## PARENTAL REIMBURSEMENTS COLLECTED

The Juvenile Division enforces court orders for parental reimbursements for the cost of care provided to youth placed outside the home. This includes secure detention and other out-of-home placement costs. The total below indicates the total amount of parental reimbursements collected. For the past five (5) years, the judge who oversees juvenile delinquency cases has ordered a decreasing amount of parental reimbursement due primarily to the parents’ lack of ability to pay such reimbursements.

	2019	2020	2021	2022	2023
<b>TOTAL</b>	\$458	\$21	\$0	\$0	<b>\$0</b>

## DEPARTMENTAL FUNDING PLAN

The Department is funded by three (3) primary sources: tax-based funds; user fees; and grants. In past years, up to 50% of the Department’s total budget came from user fees.

For many years, user fee collection rates hovered near the 80% mark on average, in part due to defendants paying cash bonds and agreeing to use released bond money to make user fee payments. Since the 2008 recession in the United States, user fee collection rates have declined. The 2016 inception of the Monroe County Pretrial Program resulted in a reduction in the use of cash bonds, and in turn, user fee collection rates have declined.

Due to the reduction in user fee collections, in 2018 the difficult decision was made to end the Road Crew Program as this program was funded solely from Community Corrections User Fees and could not be sustained. The Road Crew Program’s last day of operation was August 11, 2018.

For the past several years, the Monroe County Council has increased tax-based funding for Probation Department operations to reduce reliance on user fee funds for basic operation costs. This change in funding has helped to stabilize the user fee funds for the Department.

In 2022, the Board of Judges eliminated optional fees for juvenile probation services.

For the future, the Department is working with the County Council to increase tax-based funding for the Department so that reliance on user fees can be decreased.

## DEPARTMENTAL GRANT FUNDING

For 2023, the Department was awarded many grants totaling **\$1,901,973**. Grant-award highlights include:

- **Indiana Department of Correction (IDOC) Community Corrections Grant:** Continued grant funding to support community corrections, pretrial services, and problem solving courts. **TOTAL \$1,528,120.**
- **Juvenile Detention Alternative Initiative (JDAI) Grants State Fiscal Year (SFY) 2023-2024:** Awarded **\$15,000** to coordinate local JDAI efforts plus **\$55,000** to fund alternatives to detention (programming). **TOTAL= \$70,000.**  
**Coordination Funds (\$15,000)** – \$3,000 meals for meetings; \$3,000 four (4) Quest licenses; \$2,310 travel expenses for community stakeholders to attend JDAI events/trainings; \$840 Tableau Software License; \$600 Office Supplies; \$5,250 data analysis assistance.  
**Programming Funds (\$55,000)** – \$1,000 School supply community event; \$1,500 to support the City of Bloomington Commission on the Status of Child and Youth and the Commission on the Status of Black Males; \$5,000 Care packages for youth and families; \$1,250 Virtual work shop resource bags and Virtual Book Club support; \$1,250 Monroe County Childhood Conditions Summit – Accessibility Services; \$6,300 ADAPT partnership; \$3,000 Continued support of Trust-Based Relational Intervention (TBRI) implementation; \$11,390 Engagement with Laura Furr Consulting to work toward creating opportunities for youth and family engagement; \$7,250 The Warehouse for youth mentoring; \$13,800 Partnership with Girls, Inc.; \$3,260 Engagement with Center for Children’s Law and Policy to continue to identify youth diversion opportunities.
- **JDAI Performance Bonus Grant (SFY 2023–2024):** Awarded **\$62,042** in bonus funds due to our excellent progress with JDAI. Bonus grant funding included \$21,042 for TBRI implementation; \$3,500 for Truancy Termination partnership with the Youth Services Bureau; \$7,250 The Warehouse for youth mentoring; \$10,000 for Laura Furr Consulting for youth and family engagement; \$5,250 for Empact Solutions for data analysis assistance; \$10,000 for Quest modifications; \$5,000 Indiana University for survey partnership.
- **Veterans Court Grant:** The Indiana Supreme Court awarded funds for the salary and fringe benefits of a probation officer **\$71,903** for the calendar year (CY) 2023.
- **Drug Court Grant (SFY 2023-2024):** Indiana Supreme Court awarded **\$9,998** for Problem Solving Court incentives, chemical tests, and participant transportation (bus passes).
- **Pretrial Grant:** Indiana Supreme Court awarded **\$96,480** for CY 2023. Funds Pretrial probation officer (PO) and \$15,000 toward the salary and fringe benefits of a Public Defender.
- **Monroe County CARES Grants:** **\$3,430** awarded for drug testing supplies to support the problem solving courts and skill-based journals for community corrections client.
- **Justice Partners Addictions Response Grant (SFY 2023-2024):** Indiana Supreme Court awarded **\$60,000** grant to improve services and outcomes for inmates reentering the community from the Monroe County Jail. The grant funds a therapist and a recovery coach who are Centerstone employees, paid contractually via this grant.

The Indiana Department of Correction (IDOC) reimburses the Department for accepting inmates from prison onto early release through the Community Transition Program (CTP). This reimbursement is not a grant per se, rather reimbursement for supervising the former IDOC inmates upon their release from prison for a certain amount of time. In 2023, the IDOC reimbursed the Department a total of **\$13,400** for supervising former IDOC inmates placed on the CTP.

## PROGRAM AND USER FEES

The Department implemented a new fee collection policy in January 2019 to increase the rate of user fee collection. Probationers who pay their fees pursuant to their ability to pay an individualized fee payment plan are eligible to earn incentives such as travel permits, tickets for “fishbowl” drawings for gift cards, and prosocial time (on Home Detention). At year-end 2019, the Department’s user fee collection increased by 14% from year-end 2018.

In addition to paying probation officer (PO) salaries, user fees collected by the Department pay for many innovative rehabilitative programs that otherwise would not be possible from the limited county tax funds. A sample of public safety and rehabilitative programs funded through user fees includes:

- Barrier busters, such as bus passes for public transportation to aid clients in reducing barriers to successfully completing requirements of their supervision;
- Electronic monitoring equipment for home detention (alcohol detection units and GPS monitoring devices); and
- PRIME for Life substance abuse education classes and Alcohol and Marijuana Education classes.

Probation user fees also are used to pay for County expenses that would otherwise have to be paid from County tax-based funds, such as:

- Replacement of office equipment;
- General operating expenses such as postage and office supplies (NOTE: county tax-based funds are not a primary source of general operating expenses for the Department; such general operating expenses are supported primarily from grants and user fees); and
- Training: POs are required to have 12 hours of continuing education per year to remain certified.

## USER FEE COLLECTIONS

The Department is responsible for collecting adult and juvenile probation user fees, problem solving court user fees, and Community Corrections program fees. The Monroe County Clerk collects Court Alcohol & Drug (A&D) Program fees, Alcohol and Marijuana Education School (AES) fees, PRIME for Life fees, Drug Court Fees (prior to a 2010 statute changing the fee to a Problem Solving Court fee), and Pretrial Diversion (PDP) Community Service Program fees.

In 2023, user fee collections dropped from 2022 to a total of \$653,431 (more than 9% decrease from 2022 fee collection). The table below indicates the amount of user fees collected.

	2019	2020	2021	2022	2023

## USER FEE COLLECTION RATES

Despite efforts by the Department to collect all fees assessed by the court, some clients do not pay the user fees, program fees, and restitution as directed. In 2023, \$1,063,874 of various assessed fees were unpaid with most of the remaining fees ordered as a judgment against clients/program participants.

The following table represents collection rates for all cases that were closed in 2023 (includes only fees collected in the Department, does not include fees collected by the Monroe County Clerk). Of these closed cases, all assessments were totaled by account and all fees paid or waived were totaled by account to establish a collection rate for each individual account.

## DEPARTMENTAL FUNDING SOURCES AND BUDGETS

The Department works diligently to find innovative funding opportunities to provide programs and services without having to dip into the strapped county tax-based funds.

The table and chart below outlines the Department's budgets and sources of funds. Each item reflects the amount of funding available during the 2023 fiscal year and may include unspent grant funds awarded in previous years. User fees not spent during the budget year remain in the respective user fee account and do not revert to any other budget/account.

## JUVENILE DIVISION

The Juvenile Division of the Department is responsible for the investigation and supervision of juveniles referred to the Monroe Circuit Court. A juvenile is typically a youth under age 18 at the time of the alleged offense.

Unlike the adult probation system where adult offenders are not generally introduced to the probation system until *after* a conviction, probation is the *starting* place for a juvenile's interaction with the juvenile justice system. All juvenile cases processed through the juvenile justice system begin with a written report, or referral. The Juvenile Division receives referrals from various sources, including law enforcement, parents, schools, businesses, and the public. Juveniles are referred to the Department for committing delinquent acts or status offenses. Delinquent acts are defined as acts that would be crimes if committed by an adult. Status offenses are acts of delinquency that are not crimes for adults, and include truancy, incorrigibility, curfew violation, and runaway.

After the Juvenile Division receives a new referral, a determination is made by the Prosecutor if legal action could be taken. For those referrals where legal action could be taken, the Juvenile Division completes a Preliminary Inquiry investigation into the delinquent act by formally interviewing the juvenile and parents/guardians/custodians. At the conclusion of this investigation, a Preliminary Inquiry report is filed with the Prosecutor which includes recommendations from the juvenile probation officer regarding how the referral should proceed. The recommendations could include a request to waive the case to adult court, request formal filing of a delinquency petition against the juvenile, informally adjust the case, refer the juvenile and/or family to another agency for services, or recommend dismissal of the case.

Supervision of a juvenile occurs if the juvenile's case is approved for an informal adjustment (also known as informal probation) or supervision can occur after a juvenile is found to be delinquent (admission or true finding) by a court and placed on formal probation. Additionally, the Juvenile Division supervises juveniles who have been court-ordered to a placement facility in the best interest of the juvenile. Cases are assigned based on risk, need, and responsibility.

The Juvenile Division ended 2023 with seven (7) full time juvenile line probation officer positions, an evidence based practices probation officer, and a probation supervisor. The probation officer line staff included:

- two (2) probation officers assigned to the Juvenile Intake unit;
- four (4) probation officers supervising a mixed caseload of, pre-adjudication monitoring, formal and informal supervisions at all risk levels (per Indiana Youth Assessment System, IYAS);
- one (1) evidence based practices probation officer; and
- one (1) probation officer who served as the Juvenile Detention Alternatives Initiative (JDAI) Coordinator.

At year-end 2023, there were 39 youth under the supervision of the Juvenile Division and another five (5) youth under pre-adjudication supervision.

In 2014, the Juvenile Division became involved with the Juvenile Detention Alternatives Initiative (JDAI). This initiative was created by the Annie E. Casey Foundation and is a bipartisan movement for juvenile justice reinvestment. The initiative involves the reallocation of government resources away from mass incarceration and toward investment in youth, families, and communities. Goals of the JDAI include promoting positive youth development and enhancing public safety by eliminating unnecessary or inappropriate confinement. Though driven primarily by the Monroe Circuit Court and the Juvenile Division of the Department, JDAI is a community initiative that requires participation from resources in the community to be effective.

The JDAI has been phenomenally successful in Monroe County. In 2023:

- Average daily detention population = **0.94**. Low = 0; High = 5. Total days in 2023 with -0- in detention = **195 (entire month of June, July, and September)**.
- Average daily shelter population = **0.1**. Low = 0; High = 1. Full months with -0- in Shelter Care = 8
- Youth Placed in Residential Placement = 1
- Youth Waived to Adult Court = -0-
- Youth Sentenced to the Indiana Department of Correction = -0-

In 2023, JDAI grant funds were used to support several community engagement opportunities, including providing nerf footballs to Monroe County Sheriff Reserve Deputies to provide to community members at their 2023 County Fair booth, financial (grant) support to The Warehouse to enhance their community center's work-out area and purchase various sporting equipment, support a community back-to-school event sponsored by a local not-for-profit, provided no cost meals and personal hygiene items to community members at Switchyard Park.

Early in the pandemic and local "lockdown," which included the court and probation offices closing for more than two months in 2020, the Juvenile Division began delivering "Care Packages for Kids." This JDAI project started as an easy and safe way to interact with probation-involved youth and their families. Monroe County and other Indiana JDAI jurisdictions received recognition in local and state-wide media for initiating these care packages as an innovative way to maintain contact with juveniles and their families. Care bags are filled with personal hygiene items, seasonally appropriate items, microwaveable meals, and more. Since the 2020 inception of this effort through 2023, more than 135 bags have been provided to system-involved youth. The impact of the Care Bags extends far beyond those 135 bags, as Care Bags are also available to those living in the home who can benefit from the items.

**JDAI Project Committees: (all committees meet quarterly)**

- Steering Committee – Discusses progress of the entire JDAI project and the work of all JDAI committees.
- Detention Alternatives and Admissions – Committee was formerly Purpose of Detention and Alternatives to Detention Workgroup. The Alternatives and Admissions Committee monitors the use of the Detention Risk Assessment Instrument and Alternatives to Detention.
- Data Workgroup – Monitors statistics and provides information to the committees to make data-driven decisions.
- Case Processing Workgroup – Works toward greater efficiency in case processing to ensure justice is served in an efficient and just manner.
- Race, Equity, and Inclusion (REI) – Work is completed to advance equal opportunities for all and to improve outcomes for children, families, and the community. As part of REI, a REI data workgroup and a community engagement workgroup were formed. The REI data workgroup works to identify areas of disproportionality while the REI community engagement workgroup will assist in identifying community values through community collaboration.

## **2023 JDAI Alternative Program Highlights:**

- Anti-racism Trainings – More than 21 hours of training were provided to staff and community members on racial justice.
- Alliances to Disseminate Addiction Prevention and Treatment (ADAPT) – The local JDAI initiative joined a partnership with the Indiana University School of Medicine and Centerstone to develop and study the efficacy of substance abuse education through local mental health facilities.
- Center for Children’s Law and Policy (CCLP) – Collaboration to explore how our community can best support youth and families, and particularly youth and families of color, without relying on referrals to law enforcement and the juvenile justice system. This resulted in the submission of a comprehensive report in 2021 and the work continued in 2022 and 2023.
- Trust-Based Relational Intervention (TBRI) – Provided training to leadership and staff regarding the impact of trauma on brain development and behavior.
- Race, Equity, and Inclusion (REI) Assessment of Juvenile Probation Conditions – Staff participated in the creation new language for probation conditions while viewing each condition through an REI lens for impact on various populations served. Implementation of these conditions is scheduled to begin in 2024.
- Truancy Termination Partnership Program – Provided support to the Youth Services Bureau for incentives for youth and families who demonstrate progress in the program.
- Youth Engagement with Laura Furr – Efforts to create a pilot youth and family engagement workgroup moved forward. This workgroup is designed to allow for authentic engagement throughout youth justice reform efforts.
- City of Bloomington Commission on the Status of Children and Youth and Commission on the Status of Black Males – Provided financial support (grant) for one day event for middle and high school aged youth to focus on strengths and successes of Black and Latino local and national communities to inspire, support, and motivate youth.
- Monroe County Childhood Conditions Summit – Provided financial support to include accessibility services for the summit that includes closed captioning, American Sign Language interpretation, and other supportive options.

## JUVENILES REFERRED

A referral is a written report received from various sources, including law enforcement, parents, schools, businesses, and the public. Juveniles are referred to the Department for committing delinquent acts or status offenses when they are under the age of 18 at the time of the alleged offense. Delinquent acts are defined as acts that would be crimes if committed by an adult. Status offenses are acts of delinquency that are not crimes for adults, and include truancy, incorrigibility, curfew violation, and runaway.

The table below shows the number of individual juveniles for which the Department received a referral. If a juvenile was referred more than once or in more than one case, the juvenile is categorized by the highest level (most serious) referred offense. The table below indicates the total number of referrals received during the year; 268 individual juveniles were referred for 346 referrals (delinquent acts and/or status offenses).

	INDIVIDUALS REFERRED					NUMBER OF REFERRALS				
	2019	2020	2021	2022	2023	2019	2020	2021	2022	2023

<b>TOTAL</b>	298	232	299	255	268	396	292	382	332	346

The Department began publishing Juvenile referral statistics in 1984. That year, there were 545 referrals. Over the years, referral numbers trended upward, reaching the highest number of referrals in 2012 with 1,297 referrals. The next year, referral numbers dramatically reduced to 713 for 2013 (a 29% decrease). After peaking in 2012, referral numbers have declined gradually and reduced by more than one-half in 2014. The 292 referrals received in 2020 is the all-time lowest number of referrals received since the Department began tracking these numbers. The COVID-19 pandemic may account for low referral numbers in 2020, continuing with low referral numbers in 2021, 2022, and 2023.

## DISPOSITION OF JUVENILE REFERRALS RECEIVED AND PRELIMINARY INQUIRIES

Of the 346 referrals received in 2023, some will be carried over into the next year (3 referrals) depending on when the referral was received. Referrals can be disposed in several ways; some are disposed prior to action from the Juvenile Division at the discretion of the Prosecutor, some are disposed after the completion of a Preliminary Inquiry investigation. The chart below shows how the remaining 343 referrals received in 2023 were disposed.

### JUVENILE INTAKE TEAM

The Juvenile Division Intake Team is comprised of juvenile probation officers who meet weekly to review the investigative reports completed on each new referral received and discuss recommendations. The purpose of this review is to address questions or concerns about cases and to ensure consistent application of the risk assessment instrument occurs. The Intake Team review process assists and supports juvenile probation officers as they strive to utilize evidence-based, cost effective, and individualized responses to address delinquent behavior. The chart below shows the number of cases reviewed by the Intake Team.

## PREDISPOSITIONAL REPORTS

Predispositional Reports (PDRs) are generally completed after a finding of delinquency (guilt) to provide information to a court regarding the juvenile's risk and needs. The information included consists of: the juvenile's delinquency history; personal and family history; school involvement; physical, mental, and substance use history; and an evaluation of the risk the juvenile poses to the community. The chart below provides information on the number of PDRs completed over the past five (5) years.

## CIVIL DIVISION INVESTIGATIONS

The Juvenile Division assists the Civil Division of the Court by conducting investigations in divorce and paternity cases to provide the Court with information regarding parents and their child(ren). Examples of the information that could be investigated is the child's school performance/attendance or the child's living environment. The Courts did not assign any civil investigations in 2020, 2021, 2022, or 2023.

## JUVENILE DETENTION

Juveniles placed in secure detention are transported to a detention facility in another Indiana county. Monroe County typically utilizes the Southwest Indiana Regional Youth Village (SWIRYV) in Vincennes. However, due to staffing and capacity issues, the use of detention facilities in Bartholomew, Johnson, and Delaware counties along with temporary housing at the Department of Correction became necessary. The costs listed in the table below were paid in 2023, however these costs could have been for services delivered the previous year due to billing times. The table below shows the total juveniles admitted to secure detention; each juvenile could have been securely detained multiple times.

### SECURE DETENTIONS

A table indicating the daily population of juveniles held in detention can be found in the appendix.

\*May not include ancillary costs such as: transportation to/from detention and court hearings; medical expenses incurred while in detention; and the payment of staff to supervise youth prior to transport/court.

### JUVENILE SHELTER PLACEMENT

At times the need arises to remove children from their home, but securely detaining the youth is not necessary. When these circumstances arise, the Monroe County Youth Shelter is often utilized though other shelters within Indiana are used when necessary. In 2023, the Juvenile Division authorized four (4) individual youth to be placed in a youth shelter. These four (4) youth (3 male and 1 female) represent four (4) separate placements for a total of 35 days. A table indicating the daily population of juveniles held in shelter can be found in the appendix.

### JUVENILE RESIDENTIAL PLACEMENT

In addition to the times when a juvenile must be securely detained or placed at a youth shelter, some juveniles require longer-term care outside of their home. These placements include foster care, group homes, residential treatment centers with specialized programming, and inpatient hospital settings. Only (1) juvenile was ordered into out-of-home residential placement by the court in 2023.

## INDIANA YOUTH ASSESSMENT SYSTEM AND JUVENILE PROGRAM REFERRALS

As required by the Judicial Conference of Indiana, the Juvenile Division has been utilizing the Indiana Youth Assessment System (IYAS) since 2011. The IYAS is the risk assessment system made up of six (6) instruments to be used at specific points in the juvenile justice process to identify a juvenile participant's risk to reoffend and criminogenic needs, and assist with developing an individualized case management plan. [NOTE: Criminogenic needs are attributes of offenders that are directly linked to criminal behavior. Effective correctional treatment should target criminogenic needs in the development of a comprehensive case plan. Any treatment not targeting criminogenic needs is counter-productive to efficiency and effectiveness.]

**Diversion Tool** - designed to assess a youth's risk to reoffend within the next 12 months and is best used at initial contact for the instant offense to assist in making diversion decisions.

**Detention Tool** - designed to assess a youth's risk to reoffend within the next 12 months and is best used prior to detention to assist in making hold/release decisions and can also be used in making decisions regarding releases from detention.

**Disposition Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding post-adjudication supervision to assist in creating a supervision case plan for the youth. The Disposition Tool also has a screening tool to quickly identify youth who are low-risk and determine if a full risk assessment should be completed.

**Residential Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding level of placement, case planning, and length of stay recommendations.

**Re-entry Tool** - designed to assess a youth's risk to reoffend and identify criminogenic needs to assist in making decisions regarding release, case planning, and length of stay in residential placements.

The following table represents IYAS assessments completed by the type of tool and the percentage of juveniles risking at each level. More than one risk assessment could have been completed on a juvenile during the time a case is open and depending upon the status of each case.

	Assessments Completed	Percentage at Overall Risk Level		
		High	Moderate	Low
Diversion Tool	137	5%	78%	17%
Detention Tool	21	57%	33%	10%
Disposition Tool	53	13%	38%	49%
Residential Tool	1	0%	100%	0%
Reentry Tool	5	40%	20%	40%

Juveniles placed on supervision are assessed using the Disposition Tool. This tool provides a risk level in each of the seven life domains the tool reports. After the completion of the tool, case plans are formulated to address a juvenile’s risk and needs to reduce the likelihood the juvenile will reoffend and/or violate the terms of his/her supervision. The following chart represents the number and percentage of assessments scoring in each of the risk levels – high, moderate, and low for the Disposition Tool.

Upon the completion of a case plan, juveniles, and often their families, are referred to various services and programs in our community. The following table shows the programs juveniles and their families were referred to as part of a case plan and the risk domains these programs address.

## ADULT PROBATION DIVISION

The Adult Division of the Department is responsible for the supervision of adult offenders placed on probation and/or referred to the Court-administered Alcohol and Drug Program. Additionally, the Adult Division conducts investigations, evaluations, and assessments on offenders sentenced to supervision and when ordered by a court on defendants prior to a finding of guilt or innocence and/or sentencing.

The Adult Division is comprised of the following units: Adult Intake Unit; Adult Low/Administrative Supervision Unit; Adult High/Moderate Supervision Unit; and Enhanced Supervision Unit (ESU).

There are six (6) POs assigned to the Adult Intake Unit; two (2) Intake POs complete Presentence Investigations and the remaining four (4) Intake POs conduct formal evaluations that include a substance use assessment and risk assessment on newly sentenced offenders. The purpose of these evaluations is to determine an offender's risk and needs so that appropriate referrals for services can be made to promote an offender's successful completion of community supervision.

In August 2023, the Low/Administrative (Admin) Supervision Unit was moved under the supervision of the Court Alcohol and Drug Director from the supervision of the Adult Probation Director. The unit consists of four (4) POs, with two (2) POs assigned to each Court Team. These caseloads are comprised of a mix of clients who are assessed by the Indiana Risk Assessment System (IRAS) as low risk, and/or are being supervised by another jurisdiction as part of the Indiana Intrastate Transfer process or the Interstate Compact System.

The remainder of the general Adult Probation caseload is supervised by High/Moderate Supervision Unit, comprised of eight (8) POs, with four (4) POs assigned to each Court Team. These caseloads are comprised of a mix of clients who were assessed by the IRAS as high and moderate risk. Each Court Team has four (4) POs supervising a high/moderate caseload for two Criminal Court Divisions.

The ESU supervises high risk serious violent felons, sex offenders, clients diagnosed with a serious mental health issues (SMHI) who are not accepted in the Mental Health Court, and offenders convicted of crimes related to domestic violence (DV). The POs assigned to this unit are intended to have smaller caseloads to permit more intensive supervision.

During 2023, the Adult Division was comprised of 23 POs, with eight (8) POs assigned to the High/Moderate Supervision Unit, four (4) POs assigned to the Low/Admin Supervision Unit, five (5) POs assigned to ESU, and six (6) POs (including one part-time PO) assigned to the Adult Intake Unit.

The Adult Probation Division continues to decrease the number of clients supervised by POs to assigned to the Moderate/High Risk caseloads. This differential supervision assignment:

- Allows time for POs to complete a behavioral analysis and an individualized case plan targeting the highest risk and need areas to reduce recidivism;
- Allows POs more time with clients to target criminogenic need areas identified by the IRAS;
- Allows POs time to utilize skill-building and practice with clients;
- Allows for more time for field supervision (homes and workplaces) of high risk clients;
- Allows POs to oversee caseloads that support individual POs' strengths;
- Allows for additional coverage options (during PO absences) within teams as more POs will have working knowledge of cases within each team;
- Allows Supervisors to target coaching of POs toward the needs of each caseload;
- Allows the Department to follow evidence-based practices (EBP) principles by supervising *low* risk offenders with *low* risk supervision practices, which has been shown by research to reduce the likelihood of increasing the risk of low risk offenders;
- Allows for smaller caseloads of Moderate/High risk offenders to provide POs time for more immediate responses to violations including the use of intermediate sanctions versus filing revocation petitions; and
- Allows PO more time to reinforce/incentivize positive client changes.

At year-end 2023, the Adult Supervision Unit caseload averages (persons being supervised per PO):

Enhanced Supervision Unit (ESU) = **31**

\*Low/Administrative Caseloads = **167**

\*High/Moderate Caseloads = **39**

\*[NOTE: If all non-ESU Court Team cases were to be combined, the average caseload per each of the 12 POs would be 82 probationers per PO.]

## ADULT PROBATION SUPERVISION TRANSFERS

The Adult Division provides courtesy supervision to felons as well as misdemeanor probationers sentenced in other counties or states and transfers cases to other jurisdictions for courtesy supervision. The Division also accepts transferred cases and send cases to other Indiana Court Alcohol and Drug Programs.

The following represents the number transfer cases by type received or sent during 2023.

## PRESENTENCE INVESTIGATIONS

Presentence investigations (PSI) are conducted when ordered by a court. A PSI can be completed prior to a finding of guilt or innocence or may be conducted after a finding of guilt. PSI reports are required to be completed prior to sentencing in all felony cases except the lowest level felonies, Level 6 (for offenses committed after June 30, 2014) and D Felony (for offenses committed prior to July 1, 2014).

A PSI report is a formal report that provides pertinent information to a court regarding the defendant's risk and needs. The information in the PSI report includes: the defendant's criminal history; personal and family history; physical, mental, and substance use history; and an evaluation of the defendant's risk using the Indiana Risk Assessment System (IRAS).

### POST-SENTENCE INTAKES EVALUATIONS CONDUCTED

Post-sentence intake evaluations are conducted by Adult Intake Probation Officers after an individual has been sentenced to some form of community supervision by the court. These formal evaluations include a substance use assessment and risk assessment utilizing the IRAS. The purpose of these evaluations is to determine an individual's risk and needs so that appropriate referrals for services can be made to promote successful completion of supervision.

## **COURT ALCOHOL & DRUG PROGRAM**

The Monroe Circuit Court Alcohol and Drug Program is an integral part of the Adult Division of the Probation Department. The Court Alcohol and Drug Program is certified by the Indiana Office of Court Services (IOCS). In 2023, the Program was granted a 4-year re-certification by the IOCS.

The Court Alcohol and Drug Program is administered by the Director who is responsible for the daily operation of the Adult Intake Unit and for ensuring that all staff members receive ongoing training regarding substance related issues. All adult probation officers within the Department are certified as either substance abuse professionals or maintain a Certified Substance Abuse Management (CSAMS) credential and must complete a minimum of 12 hours of continuing education every year to maintain their certification.

Probation officers hired after January 1, 2005 who supervise adult offenders as part of the Court Alcohol and Drug Program must obtain and maintain a Court Substance Abuse Management Specialist credential (CSAMS) within two years of hiring. To obtain the credential, the staff member must have a baccalaureate degree from an accredited university; be at least 21 years of age; have at least nine (9) months of full-time employment experience related to assessment, referral, and case management of clients with substance abuse problems; must complete and document at least 1,500 hours of experience in the assessment of people with substance abuse problems; complete at least 500 hours of a supervised practicum in the areas of assessment, referral and case management of substance abuse clients; complete required training; submit a signed statement to adhere to a code of ethics; must be at least 21 years of age; and take and pass a written exam.

Adult probation officers conduct substance abuse screenings on all new cases referred by the courts for probation, regardless of case type. If the referring offense involved drugs or alcohol, or the offense was somehow related to the use or abuse of such substances, the adult probation officer will perform a more extensive substance abuse assessment; it is these cases that are considered referrals to the Court Alcohol and Drug Program.

Following the completion of the substance abuse assessment, the probation officer develops a case plan for each client. This case plan typically includes a referral to a substance abuse education program or an agency that provides treatment services. The probation officer then monitors the client's compliance with the terms of their individualized case plan.

The Court Alcohol and Drug Program does provide substance abuse education programming, but does not provide any direct treatment services.

## ADULT COURT ALCOHOL & DRUG PROGRAM INDIVIDUALS AND SUPERVISIONS RECEIVED

The Court Alcohol and Drug Program is integrated into the Adult Division of the Probation Department. Thus, most adults on probation supervision are also considered referrals to the Court Alcohol and Drug Program for supervision. Some individuals may be placed on supervision multiple times or in multiple cases.

Some cases transferred into Monroe County are only referred for court alcohol and drug program services and are not under probation supervision; in 2023, 11 such cases were received by the Department.

The chart below shows the number of individuals referred for Court Alcohol and Drug Program supervision in 2023. If an individual was placed on Court Alcohol and Drug Program supervision more than once or in more than one case, the individual is categorized by the highest level of convicted offense.

	INDIVIDUALS RECEIVED					SUPERVISIONS RECEIVED

## **COMMUNITY CORRECTIONS PROGRAM**

The Community Corrections Program is a division of the Probation Department. The Community Corrections Executive Director is also a Deputy Chief Probation Officer. The Community Corrections Division (hereafter “Division”) is primarily responsible for pretrial monitoring and post-sentence supervision of individuals placed on electronic monitoring (adult and juvenile), home detention, day reporting, and work release (transfers out-of-county). The Division also includes the Community Transition Program, Community Service Program, and the Drug Testing Program. Additionally, Monroe County’s Problem Solving Court Program falls under the Division.

The Division employs probation officers who serve as case managers, supervising caseloads of individuals who are court-ordered to complete home detention and/or day reporting through the Community Alternative Supervision Program (CASP). Additionally, the Division employs field officers to conduct field supervision of individuals at their homes, workplaces, and elsewhere.

Funding for the Division comes from several sources including the Indiana Department of Correction (IDOC) community corrections grants, user fees, local taxes, and other grants. A total of \$1,528,120 was awarded to Monroe County by the IDOC for 2023 to fund home detention, day reporting, community service, and pretrial services as well as Mental Health Court and Drug Treatment Court.

In 2023, Monroe County completed its 40<sup>th</sup> year of receiving grant funding from the IDOC. At the annual Indiana Association of Community Corrections Act Counties conference, our Community Corrections Program was recognized for its **40-year anniversary**. The IDOC is a significant funding source through the annual Community Corrections Program grant. As a condition of grant funding, the Community Corrections Program must undergo program audits by the IDOC to determine if the program meets criteria as an “evidence-based organization.” Our program scored 99 out of 100 in our most recent audit in 2018. In October 2022, IDOC conducted a new assessment of our Community Corrections Program using the Evidence-Based Correctional Program Checklist-Community Supervision Agency (CPC-CSA) assessment tool developed by the University of Cincinnati Corrections Institute. The assessment took place over one day, on site at Community Corrections, and included file reviews, policy reviews, client appointment observations, and interviews by CPC-CSA assessors with staff and clients. The Community Corrections Program has yet to receive the results of this 2022 assessment.

## **COMMUNITY CORRECTIONS ADVISORY BOARD**

The Monroe County Community Corrections Advisory Board (CCAB) was established in 1982. In 2021, Judge Mary Ellen Diekhoff was re-elected as CCAB chair and Chief Probation Officer Linda Brady was re-elected as vice chair. The CCAB meets quarterly (January, April, August, and October).

The CCAB consists of the statutorily required members (per IC 11-12-1-2 such as judges, prosecuting attorney, public defender, etc.) as well as appointed members representing local law enforcement, schools, social service organizations, victim, and former offenders.

The CCAB monitors and approves Community Corrections funding, programs, and services. Copies of the minutes from all CCAB meetings are posted on the Department’s website and may be requested from the Community Corrections Executive Director.

The Monroe County CCAB also serves at the local Justice Reinvestment Advisory Council (local JRAC). Jurisdictions are required to establish local JRACs per House Bill 1068 (2021) Local or Regional Justice Reinvestment Advisory Councils. The purpose of local JRACs is to review and evaluate system-wide justice services and implement evidence-based practices at each point in the justice system.

## **COMMUNITY ALTERNATIVE SUPERVISION PROGRAM (CASP)**

The Community Alternative Supervision Program (CASP) incorporates a continuum of incentives and sanctions approach to supervision. This continuum allows program staff to administratively move program participants through various levels of supervision intensity, allowing participants to experience immediate rewards for appropriate conduct and immediate consequences for violation of program and probation rules. Such immediate incentives and sanctions help to motivate individuals to successfully complete the required programming in less time, thereby maximizing the staff resources available to supervise existing caseloads.

Historically the CASP was comprised of six (6) levels of supervision. Due to the revised Indiana criminal code and with additional staffing provided by IDOC grant funds, in 2016 the CASP was expanded to 12 levels.

The CASP levels were modified in 2017. All CASP supervision levels listed below are informed by the risk scores as determined by the Indiana Risk Assessment System (IRAS).

Only CASP levels one (1) through five (5), are eligible for participants to earn time credit against their sentence.

## CASP LEVELS

**Level 1 (Work Release)** – Out-of-county Work Release may be Court-ordered on a limited pre-approved basis. **Targeted Risk:** Moderate to High. Participants must provide own transportation to employment and must pay program fees. Greene County & Morgan County Work Release programs are available for pre-screen acceptance.

**Level 2 (Therapeutic Home Detention with Residential Placement)** – **Targeted Risk:** Moderate to High. **Placement Factors:** Need for residential treatment; need for sober living environment; homeless or unsuitable housing; sanction for CASP noncompliance; prior CASP noncompliance history. **Considerations for Level Reduction:** Treatment completion; specified by Court Order; upon suitable residence being secured. **Housing:** Facility costs are participant responsibility; fee assistance may be possible through health insurance and/or state-sponsored programs.

**Level 3 (Enhanced Home Detention with Day Reporting)** – **Targeted Risk:** Moderate to High. **Placement Factors:** Alcohol abuser; chronic unemployed; job search; multiple work/school locations; sanction for CASP noncompliance; prior CASP noncompliance history. **Considerations for Level Reduction:** Secured employment/enrolled in school; negative substance tests; case plan progress. **Day Reporting:** Participants report Monday through Friday between 7 am and 9 am or as directed (see Level 10). **Level Status Review:** High Risk = every 30 days; Moderate Risk = every 2 weeks; Low Risk = weekly.

**Level 4 (Intermediate Home Detention)** – **Level 4 = PRESUMPTIVE starting level for Home Detention (HD).** **Targeted Risk:** Moderate to High. **Considerations for Level Reduction:** Maintaining employment; maintaining school enrollment; negative substance tests; case plan progress. **Level Status Review:** First review after participant completes 1/2 executed HD sentence; thereafter, reviews conducted every 30 days.

**Level 5 (Basic Home Detention)** – **Targeted Risk:** Low to Moderate. **Placement Factors:** In lieu of incarceration; condition of probation; community corrections/ probation violator. **Level Status Review:** If on court-ordered HD, cannot move to lower level to receive credit time.

**Level 6 (Electronic Monitored Home Curfew)** – **Targeted Risk:** Low to Moderate. **Placement Factors:** Condition of probation or pre-trial release; sanction for probation violation. **Presumptive Curfew:** between 9 pm and 6 am or as directed. **Equipment:** Radio Frequency (RF) monitoring with landline or cellular phone.

**Level 7 (Alcohol Detect Electronic Monitoring - Soberlink)** – **Targeted Risk:** Moderate to High. **Placement Factors:** Alcohol abuser; Condition of probation or pre-trial release; sanction for a probation violation involving alcohol consumption.

**Level 8 (Electronic Monitored Exclusion Zones)** – **Targeted Risk:** Moderate to High. **Placement Factors:** Condition of probation or pre-trial release; sanction for probation violation. **Exclusion Zones:** Participants ordered to not travel to or be at designated exclusion locations. **Equipment:** GPS.

**Level 9 (Drive-by Curfew)** – **Targeted Risk:** Low to Moderate. **Placement Factors:** Sanction for probation violation or as a condition of pre-trial release. **Presumptive Curfew:** Participants are placed on curfew between 9 pm and 6 am (or as directed). **Equipment:** RF electronic monitoring anklet with randomized drive-by checks.

**Level 10 (Day Reporting)** – **Targeted Risk:** Low to Moderate. **Placement Factors:** Sanction for probation violation or as a condition of pre-trial release.

**Level 11 (Pre-Trial Case Management)** – **Targeted Risk:** Moderate to high.

**Level 12 (Kiosk Reporting)** – **Targeted Risk:** Low. **Placement Factors:** Condition of probation or pretrial release. **Check-in:** Participants report to Kiosk as directed, answer set of standard questions.

## ADULT CASP LEVEL 10 INDIVIDUALS AND SUPERVISIONS RECEIVED

CASP Level 10 (day reporting) participants must report to the Community Corrections office daily, Monday through Friday, to check in and be tested for alcohol. CASP Level 10 participants are also subject to drug tests, but have no required curfew or other restrictions on their day-to-day freedom. Courts may place individuals directly on CASP Level 10 supervision. CASP Level 10 supervision is most often used as a condition of pre-trial release or a condition of probation supervision.

The chart below shows the number of individuals placed on CASP Level 10 supervision in 2023. If an individual was placed on CASP Level 10 more than once or in more than one case, the individual is categorized by the highest level of referred offense. Individuals may be placed on CASP Level 10 multiple times or in multiple cases.

## ADULT CASP LEVELS 11-12 INDIVIDUALS AND SUPERVISIONS RECEIVED

CASP Levels 11-12 (pretrial monitoring) participants must report as needed for case management or kiosk reporting. Courts typically place individuals on CASP Levels 11-12 during the pretrial period while their case is being processed.

The chart below shows the number of individuals placed on CASP Levels 11-12 in 2023. If an individual was placed on CASP Levels 11-12 more than once or in more than one case, the individual is categorized by the highest level of referred offense. Individuals may be placed on CASP Levels 11-12 multiple times or in multiple cases.

## PRETRIAL SERVICES PROGRAM

In 2014, the Indiana Supreme Court authorized the development of a pretrial pilot project. Eleven (11) Indiana counties, including Monroe County, were part of the pretrial pilot project. The Monroe County Pretrial Pilot Project officially started October 1, 2016.

Indiana Criminal Rule 26 was the foundation for the 11 Indiana counties participating in the Pretrial Pilot Project. Criminal Rule 26 was codified in Indiana law (IC 35-31.5-2-121.5 et. seq.) and became effective for all Indiana courts January 1, 2020. Criminal Rule (CR) 26 is intended to improve pretrial practices in Indiana by encouraging trial judges to engage in evidence-based decision making at the pretrial stage. The Rule encourages trial courts to use risk assessment results and other relevant information about arrestees to determine if the individual presents a substantial risk of flight or danger to self or others in the community; thereby, informing release decisions and release conditions. With the statewide implementation of Criminal Rule 26 on January 1, 2020, Monroe County changed the name of the program to reflect that it is no longer a “pilot program.” The program is now entitled the “Monroe County Pretrial Services Program.” Monroe County’s Pretrial Services Program is integrated into the Community Corrections division of the Probation Department.

The mission of the Pretrial Services Program is to assist the court in making pretrial release decisions that are prompt and equitable for all defendants regardless of ability to pay bail and provide information to the court that will maximize the court’s ability to determine effective release conditions that promote community safety.

Prior to the commencement of the Monroe County Pretrial Services Program, individuals who were arrested and booked into the county jail were only released subject to an established bail bond schedule set by the local courts. This meant that those who could afford to pay monetary bail were released immediately and those that could not afford to pay remained in jail until they appeared before a judge for an Initial Hearing. Prior to the program, the courts had limited information when making release decisions. These practices resulted in a jail that was primarily housing pretrial defendants and these same defendants were at risk of losing, or had already lost, jobs, family and peer relationships, pro-social connections, and financial support.

With the establishment of the Pretrial Services Program (hereafter “Program”), Monroe County has not only implemented pretrial best practices but has defined the pretrial target population as broadly as possible. One unique aspect of the Program is that even those defendants released from jail on a bond prior to appearing before the judge for the Initial Hearing are still subject to a pretrial assessment so that all defendants are treated the same regardless of ability to pay. The target population for the Program includes all defendants that are booked into the Monroe County Jail with a new criminal offense and are not currently under any type of community supervision in Monroe County.

The Program utilizes many evidence-based practices in order to provide defendants with appropriate and effective interventions. The Program has adopted the Essential Elements of an Effective Pretrial Release Agency as defined by the National Institute of Corrections which are research-based principles that have been incorporated into local pretrial services policy. One of the essential elements of the Program is the use of risk-based conditions and differential pretrial supervision. Monroe County uses the Indiana Risk Assessment System-Pretrial Assessment Tool (IRAS-PAT) which has been validated by researchers to our local target population and demonstrates an overall good to excellent predictive rate for pretrial misconduct. Monroe County judges use the IRAS-PAT result as well as the pretrial probation officers’ assessment summary to make release decisions that are evidence driven.

Monroe County monitors pretrial defendants based on assessed risk level and provides a range of monitoring options including non-reporting status, face-to-face appointments with a pretrial probation officer, and electronic monitoring.

The morning of the defendant's Initial Hearing (IH) before the court, Pretrial Services probation officers meet with the defendants to gather information for the Pretrial Services Report (PSR). The PSR is filed with the court Monday through Friday by 12:00 noon so that the report is available to the judge, as well as Prosecuting Attorney and Public Defender (who are both present for the IH) prior to the 2:00 PM daily IHs so that a meaningful first appearance for the defendants can be conducted.

At the IH, the court may order a pretrial defendant to be monitored on a level of community corrections programming while awaiting the disposition of the defendant's criminal case. All defendants who are assessed by the pretrial probation officers receive telephonic and text court reminders. Defendants receive a phone call reminder two days prior to every court hearing and a text message one day prior to every hearing. All defendants receive telephonic and text court reminders until disposition of their case.

Pretrial probation officers are responsible for monitoring any defendants the court orders to pretrial release through a variety of services such as case management, daily reporting, and/or electronic monitoring. Defendants' supervision level determines the length of time they are subject to additional conditions beyond just court reminder calls and texts. The supervision level is determined by the IRAS-PAT risk and the type of offense. Defendants who have a low supervision level are subject to additional conditions for 30 days; moderate supervision level lasts 60 days; and high supervision level lasts 90 days. At any time, the court could order early termination of case management, modification of case management conditions, or extend a defendant's case management conditions.

Defendants who are ordered to active monitoring receive a variety of services including voluntary referrals to social services agencies such as substance abuse treatment facilities, education and employment assistance, and physical/mental health treatment. Pretrial probation officers are also trained in the use of evidence-based practice cognitive interventions which are utilized during monitoring appointments. Interventions include Carey Guides and Bits, Change Companies interactive journaling, thinking reports, Effective Practices in Community Supervision (EPICS), and sanctions and incentives.

In 2023, 1,495 individuals in 1,765 cases began receiving some type of pretrial service. All were receiving telephone calls/texts to remind them of their next court appearance and other appointments. Pretrial monitoring was ordered in 1,073 instances for 825 individuals and staff conducted court ordered drug testing on 79 of these individuals. Only 30 individuals were ordered to pretrial home detention, which is only 1.7% of the pretrial population receiving services in 2023.

Performance measures from October 1, 2016 (start of Monroe County Pretrial Services Program) to December 31, 2023 (most recent data analysis):

- Pretrial Services Program has assessed **12,461** defendants.
- Defendants have an overall appearance rate of **92.4%** to all court hearings in each case.
- The overall safety rate (based on the percentage of monitored defendants who have completed their pretrial period and were not charged with a new offense during their entire pretrial period) is **76.8%**.
- The overall success rate (based on the percentage of monitored defendants who have completed their pretrial period and did not have a court filed technical violation, did not fail to appear for court, and were not arrested for a new offense during their pretrial period) is **63.7%**.

Since the Pretrial Services Program's inception, there has been a local stakeholder committee that meets regularly with representation from a variety of disciplines including judges, probation officers, community corrections staff, prosecutors, public defenders, jail leadership, local law enforcement, and members of the county council.

In September 2020, the Monroe Circuit Court Pretrial Services Program was granted certification through the Indiana Office of Court Services (IOCS) to deliver services as a certified pretrial program. The IOCS awarded the Pretrial Services Program full certification in April 2021. This certification is valid for three (3) years.

Monroe County Pretrial Services has been involved in multiple research projects over the last several years. As part of Indiana's Pretrial Pilot Project, Monroe County Pretrial Services Program participated in research to help validate the use of the IRAS-Pretrial Assessment Tool and the pretrial process in general. In 2023 specifically, Monroe County Pretrial Services was involved in two research projects, both conducted through George Mason University. The goal of the first study was to examine the effectiveness of drug testing requirements on pretrial defendants and examine the effectiveness of supervision strategies for defendants with self-reported substance use issues. The findings indicated that clients ordered to drug testing had a lower probability of pretrial success with a higher likelihood of any new arrest and a new arrest for a drug offense. The second study explored what factors help defendants succeed during pretrial supervision and how pretrial services can better address defendants' needs. The research found that voluntary participation in substance abuse treatment did have some effectiveness.

At the end of 2023, the Pretrial Services Program was comprised of a director and five (5) line probation officers.

The information in the following sections represents the suggested measures from *A Framework for Pretrial Justice: Essential Elements of an Effective Pretrial System and Agency* published by the National Institute of Corrections in February 2017.

## PRETRIAL ASSESSMENTS COMPLETED

The chart below shows the number of individuals assessed for pretrial risk in the target population. Risk level is measured by the Indiana Risk Assessment System – Pretrial Assessment Tool (IRAS-PAT). The target population consists of any individual booked into the Monroe County Jail who is not currently under community supervision (probation/community corrections) at the time of book-in. The target population includes persons charged with committing felony or misdemeanor offenses. The target population also includes defendants who bond out of jail before meeting with a Pretrial Probation Officer for assessment. Prior to bonding out of jail, such defendants sign a promise to appear in the Probation Department office the next business day to complete a pretrial assessment which is the same assessment used for defendants who were not able to bond out of jail.

## RECOMMENDATION RATE

The table below indicates the recommendation rate, which is based on a Pretrial Probation Officer’s information gathering after initial arrest of a defendant. An interview of the defendant is conducted to obtain information to score a pretrial risk assessment. The result of the risk assessment is applied to the locally approved release protocol that creates a recommendation based on the defendant’s pretrial risk and the instant offense. The recommendation rate indicates the percentage of instances the Pretrial Probation Officer’s recommendation aligns with the established release protocol. Typically, no recommendation is given when a defendant fails to attend the interview, is unable to provide necessary information during the interview, or refuses to participate in an interview.

	RECOMMENDATION RATE				
	2019	2020	2021	2022	2023
Recommendation Rate	99.0%	96.9%	96.8%	95.9%	<b>87.1%</b>

## CONCURRENCE RATE

The following table shows the concurrence rate that is calculated by comparing if the initial pretrial monitoring level ordered by a court upon release corresponds with the Pretrial Probation Officer’s recommendation (the recommendation is based on the local approved protocol according to assessed risk and level of instant offense).

	CONCURRENCE RATE				
	2019	2020	2021	2022	2023
Monitoring Level Agrees with Recommendation	83.2%	74.9%	81.6%	83.5%	<b>79.7%</b>
Monitoring Level Lower than Recommendation	3.7%	17.6%	9.2%	7.1%	<b>7.2%</b>
Monitoring Level Higher than Recommendation	12.4%	6.8%	8.3%	8.6%	<b>12.6%</b>

## APPEARANCE RATE BY RISK LEVEL

The following indicates the appearance rate for defendants by risk level. The appearance rate is calculated based on the year in which the hearing occurred for those who have completed their pretrial period. The percentage is based on the number of court appearances attended by pretrial defendants.

	APPEARANCE RATE				
	2019	2020	2021	2022	<b>2023</b>
High Risk	86.5%	91.1%	88.0%	85.0%	<b>89.3%</b>

<b>OVERALL</b>	92.0%	94.6%	92.7%	90.3%	<b>93.8%</b>

## SAFETY RATE BY RISK LEVEL

The chart below shows the safety rate for defendants by risk level. The safety rate is based on the percentage of monitored defendants who have completed their pretrial period in the year listed below and were not charged with a new offense over the entire pretrial period.

	SAFETY RATE				
	2019	2020	2021	2022	<b>2023</b>
High Risk	54.2%	56.2%	60.1%	52.6%	<b>54.7%</b>

<b>OVERALL</b>	76.5%	76.7%	74.5%	72.1%	<b>77.9%</b>

## SUCCESS RATE BY RISK LEVEL

The chart below shows the success rate for defendants by risk level. The success rate is based on the percentage of monitored defendants who have completed their pretrial period in the year listed below and who: (1) do not have court-filed technical violations of the conditions of their release, (2) appear for all scheduled court appearances; and (3) are not arrested for a new offense during the pretrial period.

	SUCCESS RATE				
	2019	2020	2021	2022	<b>2023</b>
High Risk	30.2%	39.6%	37.2%	31.2%	<b>29.5%</b>

## AVERAGE LENGTH OF STAY IN JAIL BY RISK LEVEL

The following shows the average length of stay in jail for defendants by risk level. The length of stay is based on the initial jail stay after arrest and only includes released defendants.

Length of stay is calculated by date booked in and date booked out of jail. For example, a defendant may have been booked in at 11:00 PM on a Tuesday and bonded out of jail at 2:00 AM the next day Wednesday, but the jail stay will be calculated as two (2) days even through the time spent in jail custody was three (3) actual hours.

	AVERAGE LENGTH OF STAY IN DAYS				
	2019	2020	2021	2022	<b>2023</b>
High Risk	16.9	23.0	26.3	25.8	<b>22.6</b>
Moderate Risk	13.1	16.9	15.3	13.6	<b>23.2</b>
Low Risk	3.5	7.0	10.6	9.7	<b>4.9</b>
<b>OVERALL</b>	9.3	14.3	15.4	14.0	<b>15.1</b>

## RELEASE RATE

The table below indicates the release rate by risk level. The release rate is based on the percentage of defendants who are released prior to disposition of their case. The rate is reported in the year in which their case is disposed and the pretrial period has ended.

	RELEASE RATE				
	2019	2020	2021	2022	<b>2023</b>
High Risk	86.1%	91.9%	91.3%	88.5%	<b>89.6%</b>

## **ADULT COMMUNITY TRANSITION PROGRAM OFFENDERS RECEIVED**

The Community Transition Program (CTP), as defined in Indiana law (IC 11- 8-1-5.) is the assignment by the court of a court-committed individual from the Indiana Department of Correction (IDOC) to a Community Corrections program. The purpose of the CTP is to facilitate the successful reintegration of individuals returning to the community after serving a sentence in a state prison. The individual may be placed on CTP for 60 to 180 days, depending on the individual’s highest level (most serious) convicted offense, to complete the individual’s prison sentence in the person’s county of residence. This early transition from prison provides structure, supervision, and support for the individual to encourage successful reentry to the community.

In Monroe County, individuals assigned to CTP are generally placed on community corrections supervision, typically Community Alternative Supervision Program (CASP) Levels 2-5 (Home Detention). Some are also accepted into the Reentry Court Program.

Only felony offenders may be sent to the IDOC, thus the highest level of offense for each offender participating in CTP will be a felony. To be eligible for CTP, the offender must first be willing to participate in the program and agree to abide by all program rules. For IDOC inmates who are eligible for CTP and are willing to participate in the program, the IDOC sends a request to the sentencing court to ask that a soon-to-be-released inmate be released early on CTP. The sentencing court makes the final determination regarding acceptance or rejection for CTP. Most often, the sentencing court requests that a probation officer screen the application for CTP and make a report to the court. In 2023, the Department screened **29** IDOC inmates for CTP and the courts accepted only one (1) for early release on CTP. Two (2) referrals were cancelled by the IDOC, which means **26** IDOC inmates were rejected by the courts for early release on CTP.

There were eight (8) individuals on CTP supervision in 2023.

## **OFFENSE TYPES FOR ADULT COMMUNITY TRANSITION PROGRAM SUPERVISIONS RECEIVED**

Some individuals placed on Community Transition Program (CTP) supervision are convicted of or charged with more than one offense. The table and chart below illustrate the types of offenses for which an individual was placed on CTP supervision.

## **ADULT COMMUNITY TRANSITION PROGRAM SUPERVISIONS CLOSED**

Individuals completing the CTP could have been discharged from multiple supervisions in multiple cases and each case could have a different type of discharge depending on the final disposition given by a court. There were six (6) felony supervisions closed in 2023 and all six (6) were closed successfully.

## COMMUNITY SERVICE PROGRAM

The Community Service Program is comprised of the Public Restitution Program. The Road Crew Program was formerly a part of the Community Services Program, however the Road Crew Program officially ended August 11, 2018 due to budget constraints. Special Road Crew sessions may be held for events such as the annual Little 500 event.

Public Restitution Program participants are assigned to a local non-profit or government agency to complete the community service hours required by a court and/or required as a condition of community supervision.

The chart below shows the number of individuals referred for community service in 2023 (Public Restitution only, no Road Crew events were held). Individuals may have been referred multiple times or in multiple cases.

## DRUG TESTING PROGRAM

The Community Corrections Program operates the Department’s Drug Testing Program. Currently, the Department employs three (3) methods of testing for substances in the body: urine, saliva, and breath.

The most frequent method of testing is through Portable Breath Tests (PBT) which test only for the presence of alcohol. To test for the presence of substances in addition to alcohol, the Department utilizes various methods to test urine and saliva. Because testing urine provides an extended window of time for detecting substances in a person’s body, it is used more frequently than saliva. The Department utilizes ‘instant’ tests along with lab testing for the most frequently abused substances. Probation officers also have the discretion to request enhanced testing for substances not routinely tested for in the regular panels provided.

In 2023 the Department completed 24,824 portable breath tests, 2,847 instant drug tests, 2,371 saliva tests, and 8,935 lab drug tests. This includes tests in some civil cases where a party may be ordered by the court to complete drug testing. The tables below show the substance testing by supervision areas within the Department. Individuals tested could be counted in more than one category, for example a person could be in a problem solving court program and on a community corrections supervision level at the same time.

# PROBLEM SOLVING COURT PROGRAM

Problem solving courts in the United States began in the 1990s to accommodate individuals with specific needs and problems that were not or could not be adequately addressed in traditional courts. Problem solving courts seek to promote outcomes that will benefit not only the offender, but the victim and society as well.

Among the ways problem solving courts differ from regular courts are focus, collaboration, and judicial involvement. For example, a problem solving court typically has a team of individuals including a judge, prosecutor, public defender, probation, law enforcement, and treatment providers who routinely collaborate on each case throughout the duration the offender is involved as a participant. The team discusses many issues regarding each case and works to reduce barriers to an offender's success.

The Monroe Circuit Court developed a drug court in 1999 as the county's first problem solving court. The local Drug Treatment Court has been certified by the Indiana Office of Court Services (IOCS) as a problem solving court. In 2023, the Drug Treatment Court celebrated its 24-year anniversary.

The Drug Treatment Court is organized around the 10 Key Components of Drug Courts<sup>1</sup> which research has shown provide the basic elements that define drug courts. The program is a minimum of two years and involves the following components:

- A plea of guilty to a felony offense with no agreement to sentencing should the participant fail to successfully complete drug court. Should the participant complete drug court successfully, the charge(s) are dismissed or reduced.
- Program participants must attend weekly court/status hearings as directed by the Problem Solving Court Team.
- Participants are required to obtain and maintain appropriate employment for the duration of the program.
- Participants will be required to complete high school/GED/TASC or vocational training if they have no apparent marketable job skills.
- Participants are required to submit to frequent random drug/alcohol tests.
- Participants must complete substance abuse treatment and any additional counseling/programming that is deemed necessary by the treatment provider.
- Participants must pay all program fees, drug test costs, and treatment costs associated with completion of this program.
- Program participants must have one year of documented sobriety to be eligible for successful program completion.

The local Problem Solving Court (PSC) Program added three (3) program components:

- **2014 - Reentry Court Program (RECP).** The majority of RECP participants served time with the Indiana Department of Correction immediately prior to beginning the program. RECP applies many of the key components of drug courts to promote positive behavior change and aid in reintegration to the community.
- **2015 - Mental Health Court (MHC).** MHC addresses the unique needs of people diagnosed with a serious mental illness who are involved in the criminal justice system.
- **2016 - Veterans Treatment Court (VTC).** A grant was obtained from the Indiana Supreme Court to begin the program. The VTC is a district court that can accept participants from Monroe, Owen, and Lawrence Counties.

<sup>1</sup> U.S. Department of Justice Office of Justice Programs Bureau of Justice Assistance

In 2018, IOCS conducted a site audit of the PSC Program and re-certified the Drug Treatment Court Program and granted initial certification to all three of the new PSC components - Reentry, Veterans, and Mental Health courts - effective March 2018 for three years. In February 2022, all four (4) PSC components were recertified by IOCS and will once again go through recertification in 2024.

Indiana certified problem solving court programs must undergo program evaluations on a regular basis. In 2019, Dr. John R. Gallagher, Indiana University School of Social Work, completed the updated evaluation of the Drug Court Program. Another evaluation of all four (4) PSC components will take place in 2024.

### **Highlights from the evaluation Executive Summary:**

- The Monroe County drug court is an effective program at reducing recidivism and a valuable resource for individuals who have substance use disorders, the community, and other stakeholders.
- Drug court participants were significantly less likely to recidivate than participants in the comparison group. Only 18% of drug court participants recidivated, whereas the recidivism rate for the comparison group was 54%.
- Differences between the 2014 and 2019 program evaluations: when comparing the evaluations, the drug court increased its graduation rate (54% in 2014 to 66% in 2019) and decreased its recidivism rate (32% in 2014 to 18% in 2019).
- Regarding graduation, drug court participants who were unemployed at the time they were deemed eligible for the program were more likely to graduate than participants who were employed, a student, on disability, or retired at the time they were deemed eligible for the program.
- Drug court participants who were married at the time of eligibility determination were more likely to graduate than participants who were not married at the time they were deemed eligible.
- Male drug court participants were more likely to recidivate than female participants.
- Drug court participants who had a mental health diagnosis were more likely to recidivate than participants who did not have a mental health diagnosis.
- Participants who had a violation within the first 30 days after admission to drug court were more likely to recidivate than participants who did not have a violation during that timeframe.
- Overall, participants viewed the drug court team as supportive, and they felt that praise from the judge was one of the most helpful incentives they received.
- Some participants noted that the frequent and random drug testing system deterred them from using drugs and resulted in positive, cognitive changes that supported their recovery.

### **MONROE COUNTY PROBLEM SOLVING COURT PROGRAM INFORMATION**

- The local Drug Treatment Court Program started in November 1999.
- During the 10-year Anniversary celebration in December 2009, the program became 1 of only 10 of the over 2,300 Drug Courts in the nation to receive the Community Transformation award from the National Association of Drug Court Professionals for “tireless efforts to foster community transformation through reducing drug addiction and crime, restoring hope and reuniting families.”
- As of December 31, 2023, **530** participants have completed the Drug Court Program; **52** have completed Reentry Court; **23** have completed Veterans Treatment Court; and **24** have completed Mental Health Court.
- Overall graduation rate of **62% for Drug Court** compared to national average of close to **50%**.
- As of December 31, 2023, **97** participants currently enrolled in all the four (4) Problem Solving Court Program components.
- Seventy-eight (**78**) drug free babies born to Problem Solving Court Program participants (all four program components combined, from November 1999 through year-end 2023).
- In 2023, of all drug tests completed on Problem Solving Court Program participants, **only 3% positive drug tests** compared to about 32% positive drug test rate for “traditional” adult probation in Monroe County.

## **RECIDIVISM DATA FOR MONROE COUNTY DRUG TREATMENT COURT**

- In 2006, the Drug Treatment Court Program participated in a state-wide outcome evaluation and cost benefit analysis research project conducted by Northwest Professional Consortium (NPC) of Portland Oregon.
- This outcome study found that the Monroe County Drug Treatment Court (DTC) Program **reduces recidivism by 67%** and saves taxpayer money.
- NPC research showed that recidivism rate for DTC participants (including dropouts) was **17%** while the rate for the comparison group was **33%**.
- DTC participants (regardless of graduation status) were found to be **half as likely to have had any arrests** in the 2-year follow-up period relative to the comparison group.
- DTC graduates had an even lower recidivism rate of **11%**.

# INDIANA RISK ASSESSMENT SYSTEM AND ADULT PROGRAM REFERRALS

In 2010, the Judicial Conference of Indiana adopted policies that required all probation departments in the state to use a newly adopted risk assessment system for adult offenders in the criminal justice system. In 2011, all appropriate adult risk tools were fully integrated into departmental practices.

The adult risk assessment instrument is called the Indiana Risk Assessment System (IRAS). The IRAS is the risk assessment system made up of five (5) instruments to be used at specific points in the criminal justice process to identify an adult participant’s risk to reoffend and criminogenic needs, and assist with developing an individualized case management plan. [NOTE: Criminogenic needs are attributes of offenders that are directly linked to criminal behavior. Effective correctional treatment should target criminogenic needs in the development of a comprehensive case plan. Any treatment not targeting criminogenic needs is counter-productive to efficiency and effectiveness.]

**Community Supervision Screening Tool** - designed to quickly identify low risk offenders and determine if a full risk assessment should be completed.

**Community Supervision Tool** - designed to assess an offender’s risk to reoffend and identify criminogenic needs to assess in making decisions regarding community supervision.

**Pretrial Tool** - designed to assess an offender’s risk for failure to appear and risk to reoffender while on pretrial supervision.

**Prison Intake Tool** - designed to assess an offender’s risk to reoffend and identify criminogenic needs to assist in making decisions regarding services.

**Static Tool** - designed to assess an offender’s risk to reoffend based solely on static factors.

**Supplemental Reentry Tool** - designed to reassess an offender’s risk to reoffend prior to an offender’s release from prison.

The following table represents IRAS assessments completed by the type of tool used by the Department and the percentage of adults risking at each level. More than one risk assessment could have been completed on an adult during the time a case is open and depending upon the status of each case.

## 2023 IRAS ASSESSMENTS COMPLETED

	Assessments Completed	Percentage at Overall Risk Level		
		High	Moderate	Low
Community Supervision Screening Tool	412	47%		53%
Community Supervision Tool	1,089	35%	32%	33%
Pretrial Tool	1,608	16%	40%	44%
Static Tool	6	66%	17%	17%
Supplemental Reentry Tool	2	0%	100%	0%

Adults placed on post-sentence supervision are assessed using the Community Supervision Tool. This tool provides a risk level in each of the seven life domains the tool reports. After the completion of the tool, case plans are formulated to address an offender’s risk and needs to reduce the likelihood the adult will reoffend and/or violate the terms of his/her supervision. The following chart represents the number and percentage of assessments scoring in each of the risk levels – high, moderate, and low for the Community Supervision Tool.

## SUPPORT DIVISION

The Support Division provides service that is vital to the efficient functioning of the Department. Support staff members provide receptionist services, bookkeeping, cashiering, e-filing, data entry, and numerous other functions.

Support staff is typically the first contact for clients and the public. In this role, support staff members serve a unique function of setting the tone for how clients and the public will be served by the Department. In recognition of this unique position, support staff members participate in training to enhance positive experiences for clients and the public. Starting in 2016, support staff members are trained in evidence based practices (EBP) and Effective Practices in Community Supervision (EPICS).

Because the Department's offices occupy two separate locations, the Curry Building and the Community Corrections office, support staff functions must be highly coordinated to effectively serve both locations. The primary location of most of the Department's functions is the Curry Building, directly adjacent to the Justice Building. The Community Corrections office is located at 405 West 7<sup>th</sup> Street in Bloomington.

The Community Corrections office has been in operation at the location above since 1995. The Community Corrections support staff consists of an office manager, receptionist, and part-time probation officer assistants. With such a small support staff, all Community Corrections staff members are cross-trained to substitute for absent support staff when needed.

The Curry Building support staff consists of an office administrator, an office manager, a bookkeeper/cashier, adult probation secretary, juvenile probation secretary, and receptionist.

Support staff experienced two vacancies during 2023 with the legal secretaries due to promotion and relocation to another city.

Most misdemeanor offenders and Level 6 felons are sentenced by the court without presentence investigation reports. These sentenced offenders report to the Department for their first contact immediately after sentencing. These "walk-in" probationers are dealt with first and foremost by support staff members who obtain demographic information, create electronic client files/records, and provide basic information to these "walk ins." In 2023, there were **571** "walk-ins" processed by support staff.

# OTHER PROBATION PROGRAMS, TRAINING, & COMMITTEES

## INTERN PROGRAM

The Department typically operates an internship program in cooperation with Indiana University (IU) and other colleges and universities from around the state of Indiana. Although these internships are unpaid, the students receive college credit. The Department has supervised student interns from various departments at IU including Criminal Justice, School of Social Work, School of Public and Environmental Affairs, and general studies. In 2023, the Department supervised six (6) interns for a total of 900 hours of work through the year.

## STAFF TRAINING

The Judicial Conference of Indiana mandates that certified probation officers complete a minimum of 12 hours of continuing education per year, with six (6) of these hours related to evidence-based practices. Court Alcohol and Drug Program and Problem-Solving Court staff members are also required to complete a minimum of 12 hours of continuing education each year.

Effective January 1, 2019, Indiana probation officers are required by the Judicial Conference of Indiana to complete suicide awareness and prevention training. Every probation officer must attend suicide prevention training on an annual basis.

Starting in 2019, the Probation Department began partnering with the Monroe County Youth Service Bureau for training purposes. The Youth Services Bureau (YSB) is supervised by the Monroe Circuit Court. YSB includes probation staff members in their trainings where space permits. YSB trainings that probation staff may attend include: Red Cross training (CPR, AED, and First Aid).

The Probation Supervisors set the following training priorities for 2023: improving Effective Practices in Community Supervision (EPICS) skills; consistency in administering Indiana Risk Assessment System (IRAS) and Indiana Youth Assessment System (IYAS); Evidence Based Practices (EBP) Overview for all new staff members; Effective Communication and Motivation Skills (ECMS) for all new staff that have not been trained; case planning; suicide prevention; Trust Based Relational Intervention (TBRI) and pepper spray training.

In 2023, Monroe County Sheriff's Deputy Timothy Pittman conducted a training for Probation Search Team members. Deputy Chief Prosecuting Attorney Jeff Kerr gave a presentation for the Search Team regarding the laws and case law regarding probation searches.

National Trainings attended:

- **2023 APPA Conference, New York, NY.** Funded by unspent and re-appropriated grant monies, a team of 10 probation officers (POs) attended this conference.
- **2023 National Association of Pretrial Services Agencies (NAPSA), New Orleans.** Funded by grant funds, two (2) Pretrial POs attended this conference.
- **2023 National Association of Drug Court Professionals.** Funded by grant funds, three (3) POs attended this conference.

During 2023, staff completed 5,262 hours of training with 3,516 of those hours related to evidence-based correctional practices.

## **FUN COMMITTEE**

The Fun Committee was formed in 2006 to coordinate departmental in-service trainings and other activities for the department throughout each year.

The Fun Committee organized several activities and celebrations in 2023. One of the two highlights of 2023 was *Probation, Parole & Community Supervision Week* in July of 2023, which included goodie bags for staff, the annual corn hole tournament with ice cream from Jiffy Treat, pizza party, scavenger hunt, rock decorating, service project day with Saint Jude, collecting drink tabs from aluminum cans to fundraise, and a swearing-in ceremony for newer staff that included cake and punch.

The second 2023 highlight resulted in the committee being able to organize the annual departmental in-service finally and once again on October 25, 2023 at Switchyard Park with numerous activities, games, food, Halloween costume contest and a guest speaker (Michael Whiteside) that spoke with staff on self-care and mental health for us all.

## **GREEN COMMITTEE**

In 2010, the Green Committee was created in response to employee efforts to promote recycling at both departmental offices. In 2023 the committee gained larger recycling bins due to the volume of materials being recycled. The committee continued to implement recycling procedures for separating plastic, glass, aluminum, paper, and battery refuse.

# EVIDENCE BASED PRACTICES ORGANIZATION REPORT

The National Institute of Corrections defines evidence-based practice (EBP) as the objective, balanced, and responsible use of current research and the best available data to guide policy and practice decisions, such that outcomes for consumers are improved. Used originally in the health care and social science fields, evidence-based practice focuses on approaches demonstrated to be effective through empirical research rather than through anecdote or professional experience alone.

The Probation Department began utilizing evidence-based practices (EBP) in 1998. Research has shown that when probation, parole, and community corrections programs are evidence-based organizations, they are more likely to be successful in reducing recidivism. However, using evidence-based programs and practices alone does not make an organization an “evidence-based organization.” The Indiana Department of Correction (IDOC) audits all programs that receive IDOC grant funding to ensure that they meet criteria/standards as an evidence-based practices organization. Although the IDOC audits only the Community Corrections division of the Department, the Chief Probation Officer decided that all units, divisions, and staff members of the Department will participate in the implementation of EBP organization practices.

## 2023 SUMMARY OF EBP ORGANIZATION ACCOMPLISHMENTS

- **EBP Coordinator** - The Department added a second EBP Coordinator position with a focus on juvenile services. Both EBP Coordinators report to the Continuous Quality Improvement (CQI) Director and were responsible for facilitating new and ongoing EBP trainings, coaching staff by watching videos or observing appointments, and assisting with the facilitation of Learning Teams.
- **EPICS Training for New Staff** – The CQI Director and EBP Coordinators facilitated an EPICS skills training for new departmental staff which included learning the steps to all the EPICS skills.
- **EPICS Training for All Probation Officers** -The Department contracted with Core Correctional Solutions (CCS) to provide advanced EPICS training to all probation officers (POs). Each probation officer received 32 hours of training in these skills.
- **EPICS Coaching with Core Correctional Solutions** - The Department contracted with CCS to provide individualized coaching to all POs who supervise high and moderate risk clients. The coaches from CCS conducted a pre-coaching session before the client appointment, observed the appointment in real time, and immediately conducted a coaching session following the appointment. POs who participated in CCS coaching received a total of four (4) sessions each.
- **Effective Practices in Community Supervision (EPICS) Skills Video Library** – All POs recorded videos of appointments and submitted them to the EBP Coordinators for individualized coaching. These videos are available in a shared video library accessible to all Probation employees. Newer POs submitted videos more often as they worked through each EPICS skill to become proficient while other POs submitted a follow-up video after each coaching session with CCS to practice using the feedback they received from CCS.
- **EBP Training for New Staff** – One PO was trained to facilitate discussion with new staff to explain the purpose of Evidence-Based Practice and how it is applied in the Department.
- **Learning Teams** - The Department implemented Learning Teams at the beginning of 2023. Each departmental division was an independent Learning Team. Learning Teams were led by POs, not supervisors, and the teams focused on EBP-related topics to expand their knowledge and practice their skills. The CQI team which consists of the probation officer supervisors and EBP Coordinators also met as a Learning Team to discuss how to support and coach POs.
- **Indiana Risk Assessment System (IRAS/IYAS) Boosters** – All POs attended an IRAS/IYAS refresher session which reviewed the scoring rules and offered some examples/scenarios in the more subjective areas of the IRAS/IYAS. POs also watched an IRAS/IYAS reassessment video and independently scored the IRAS/IYAS. Any POs identified by the IRAS/IYAS trainers as needing additional support worked individually with a trainer.

## RESEARCH PROJECTS

### **Reducing Revocations Challenge**

Indiana University (IU) and the Department were selected to participate in Phase I of the Reducing Revocations Challenge. The Reducing Revocations Challenge (RRC) is a national initiative of Arnold Ventures and the CUNY Institute for State and Local Governance (ISLG) dedicated to understanding the drivers of probation revocations and identifying ways to reduce the community supervision failures that send almost 350,000 people to jails and prisons each year.

For Phase I, IU researchers received a \$198,312 grant to conduct on the ground, in-depth research and data analysis on the drivers of probation failures in Monroe County. During Phase I, IU was a part of a learning network alongside the nine (9) other jurisdictions selected to participate in the Challenge, including participation in a cross-site summit, where findings and potential solutions were shared and discussed. Members of the learning network also received guidance and technical assistance from ISLG and an Advisory Board of experts in the field at each step along the way. Dr. Miriam Northcutt Bohmert was the Principal Investigator at IU along with Dr. Eric Grommon of Indiana University Purdue University Indianapolis, and Dr. Evan Lowder of George Mason University. Assisting throughout Phase I was Project Manager Michelle Ying. A full report from the Phase I findings can be found on the Probation Department website here:

[https://www.co.monroe.in.us/egov/documents/1624997136\\_04056.pdf](https://www.co.monroe.in.us/egov/documents/1624997136_04056.pdf)

The Phase I findings, which were released in 2021, were used to propose evidence-based solutions for policy and practice for Phase II of the initiative. Of the ten jurisdictions participating in Phase I, only five (5) jurisdictions were selected to continue Phase II of the Challenge, including Monroe County.

For Phase II of the RRC, Monroe County was approved to use grant funding from Arnold Ventures to implement three strategies:

- (1) Increase fidelity to motivational interviewing (MI), effective practices in community supervision (EPICS), and case planning;
- (2) Revise the standard conditions of probation to be fewer in number as well as positive and goal-oriented in tone; and
- (3) Increase use of earned early termination from probation and incentivize positive behaviors.

IU and the Department were awarded a grant from Arnold Ventures totaling \$298,000 to support Phase II of the Challenge, with \$170,000 of the grant awarded to the Department for implementation and the balance to provide research support for the initiative. Phase II of the Challenge officially kicked off on October 1, 2021 and continued until September 30, 2023.

Throughout 2022 and 2023, the Department focused on training of staff to increase fidelity to MI, EPICS, and case planning. This included multiple trainings for staff as well as access to online learning modules to increase skills in the utilization of EPICS.

To implement other strategies from Phase II, the Department formed numerous committees and workgroups to focus on case planning, probation officer incentives/reinforcements, client incentives/reinforcements, earned early termination of probation, and a probation officer dashboard of performance metrics. Though the project formally ended at the end of September 2023, work in each of these areas continues.

Work on revising the probation conditions kicked off in the latter part of 2022 with a large criminal justice stakeholder group. This work was facilitated by an outside consultant, Dr. Brian Lovins from Justice Systems Partners, to guide the process of revising the conditions. A final product was completed and implemented in August 2023. Standard conditions were reduced from 13 to only nine (9) standard conditions, with most compliance-oriented language revised to behavior change-based language.

The Department's RRC Implementation Team is comprised of Chief PO Linda Brady, Deputy Chief PO Troy Hatfield, Deputy Chief PO/Community Corrections Executive Director Becca Streit, Pretrial Services Program Director/Continuous Quality Improvement Director Chelsea Walters, and Evidence Based Practices Coordinator Leah Baker. In October 2023, several members of the Action Research Team and Department's RRC Implementation Team traveled to Minneapolis with the other RRC sites from around the country to present our findings from implementation.

Monroe County's RRC Phase II project officially ended September 30, 2023. [Our final report](#) covers what we learned in Phase II, including both the "how to" of driving policy change through action-research, and some interesting preliminary data.

### **Pretrial Services Research**

Chelsea M.A. Foudray, a doctoral student at George Mason University under the direction of Dr. Evan Lowder, began working with Monroe County in 2022 to study the effectiveness of pretrial supervision strategies for defendants with self-reported substance use. The research examined the effectiveness of drug testing requirements on pretrial defendants and examined the effectiveness of a needs-based approach to supervising individuals with substance use culminating in a successful dissertation defense (*Problematic Substance Use and the Pretrial Period: Risk- and Needs-Based Supervision Strategies*).

In the first study leading up to the dissertation project, Dr. Foudray examined the effectiveness of pretrial drug testing on pretrial outcomes for defendants with problematic substance use. Findings showed that pretrial defendants with a drug testing condition during their supervision period were at a higher risk of pretrial failure compared to defendants without a drug testing condition. Further, defendants with a drug testing condition showed a higher likelihood of rearrest, rearrest on drug-specific charges, and any failure compared to defendants without drug testing.

In examining the effectiveness of a needs-based approach to supervising individuals with substance use, overall findings point to the lack of existing suitable strategies for managing defendants with problematic substance use during the pretrial period. A needs-based approach to addressing substance use issues shows promise and future research is needed on a larger scale which may indicate an improvement in experiences and outcomes for pretrial defendants with problematic substance use.

### **Juvenile Services Research**

Since 2020, the Department has been involved in the Alliances to Disseminate Addiction Prevention and Treatment (ADAPT) study funded by the National Institutes of Health and led by Principal Investigator Matthew Aalsma, PhD, associated with Indiana University Purdue University Indianapolis (IUPUI).

The ADAPT project takes a two-pronged approach. First, the project employed a Learning Health System (LHS) to develop collaborative alliances between juvenile justice agencies and community mental health centers, organizations that traditionally operate independently. Second, the project aims to present local data within the LHS alliances. By offering agency representatives an opportunity to view and discuss, for example, the local rate at which youth in the juvenile justice system at risk of substance use disorders are initiating services, the project team will facilitate development of tailored, local solutions to improve services for each county.

In this project, Departmental staff attend training, completed various surveys, and tracked a variety of data elements during the implementation. The project is expected to wrap-up in 2025.

## Introduction

### Mission Statement:

The mission of Youth Services Bureau is to support youth and families through advocacy, education, collaboration, and fostering community connections.

### Vision Statement:

Youth Services Bureau of Monroe County envisions a thriving community, rooted in compassion, rich in opportunity, where youth and families are empowered and resilient.

### Agency Values:

Integrity, Advocacy & Awareness, Service, Importance of Human Relationships, Honoring Dignity of Person, Investment

### History:

Since 1972, Youth Services Bureau of Monroe County has provided services to strengthen families, divert youth from the juvenile justice system, and to foster positive youth development. Family support and structure are necessary for the development of our community's youth. YSB offers services that foster positive family functioning and help lay the groundwork to build healthy, productive individuals.

### Accreditation & Memberships:

YSB is an accredited Indiana Youth Services Association (IYSA) member. We fulfill the 4 core roles of delinquency prevention, advocacy, community education and information & referral with our programs. <sup>1</sup>

YSB is a member of Indiana Association of Resources and Child Advocacy (IARCA). It is an association of concerned agencies who not only care for children and families, but also care about them. <sup>2</sup>

YSB is a member of National Safe Place Network (NSPN). This organization provides quality training and technical support for youth and family service organizations across the country. <sup>3</sup>

## **Executive Director's Report**

The Youth Services Bureau operated 24/7 to provide services a total of 138 times to youth who were placed in the Binkley House emergency shelter. The average length of stay for youth increased to over 17 days from 14.5 days in 2022. The number of referrals increased significantly from 528 to 562 this year. This increase could be attributed to staffing shortages resulting in fewer available beds in other emergency shelters around the state, as well as COVID-related mental health issues. YSB identified 40 cases of physical or sexual abuse and/or neglect to the Indiana Department of Child Services, totaling 32% of the youth served.

Program expansion and development was the focus of 2023 at YSB. With the appropriation of five new staff including a data specialist, 2 counselors, an education case manager, and a Youth Prevention Specialist in 2022, the challenge was hiring, training, and onboarding staff while continuing to provide our ongoing emergency shelter programming. Piloting evidence-based programs and responding to community youth expressed needs resulted in positive program feedback promoting additional program enhancement goals for 2024. With the additional counselors, our clinical team also increased the number of community-based counseling clients to double the number served in 2022.

The Truancy Termination Partnership Program pilot started in October 2022 and was expanded this year to include both Monroe County Community and Richland Bean Blossom School Corporations. The program received a total of 81 referrals of both middle and high school youth for the spring & fall semesters. The Youth Advisory Board began meeting in May 2023, held 7 monthly meetings, and provided valuable feedback to the YSB administration identifying key issues for consideration. Seeking Safety, a program to provide support for youth with substance abuse, trauma, and related issues began its pilot in September 2023. Our Safe Place Program expanded to include Brown County, and YSB's Brigitt Nasby won National Safe Place Coordinator of the Year for 2023 for her prior work completed at the agency.

Prevention and Outreach work through YSB subcommittees and Safe Place continued in the community. The eighth annual Monroe County Childhood Conditions (MC3) Summit was in person at the Convention Center in November 2023 with over 150 community members attending representing over 70 agencies. Global Youth Service Day involved service projects with over 15 high school youth from both school corporations, MCCSC and RBBSC. Prevention provided over 45 trainings on various topics in the community throughout the year.

Youth Services Bureau of Monroe County staff maintained a safe, nurturing environment for youth in the shelter and strived to develop new programs to provide services to families in our community continued to pass consistent scrutiny through various required audits including Indiana Department of Child Services, Family and Youth Services Bureau, and Indiana Youth Services Association in 2023. In 2024, we look forward to continuing the implementation of the expanded juvenile services program capacity, and potentially increasing non-residential diagnostic evaluations for youth. We look forward to the continued challenge of our mission to support youth and families.

**Viki Thevenow, Executive Director**

## Finance & Personnel Coordinator

The Youth Services Bureau remained fiscally responsible by utilizing existing funds, seeking grant opportunities, and only requesting minimal increases to the annual budget to fund new programming or mitigate inflation. Despite price surges and inflation of shelter supplies and food, we remained diligent and decreased costs in other areas to meet the needs of the residents with minimal needs for additional funding. There was a considerable drop in travel and training expenses in 2022 due to conferences being held on digital platforms, although in 2023 we have observed an increase again as in-person conferencing has resumed.

YSB maintained a strong relationship with the Department of Child Services and secured a per diem rate of \$613.88 per child per day for the first half of 2023 and \$630.46 per child per day for the second half of 2023. This is an increase of \$143.54 and \$160.12 respectively from the 2022 rate of \$470.34. The per diem revenue is directed into the Monroe County General Fund. The agency continues to receive the Runaway & Homeless Youth Basic Center Grant. The current grant budget period began in the fall of 2021 and will run for three years. The agency was also awarded state funding from the Indiana Youth Services Association (IYSA) which helps to fund Safe Place program outreach, partially fund a case manager and supplement direct-care staff costs.

In 2023, personnel changes included welcoming a new Safe Place and YSB Outreach Manager, a new Youth Prevention Specialist, and a new Counselor as well as several new direct-care staff within Binkley House. There were also internal transitions, as part-time direct care staff moved up into open full-time roles. YSB also launched another program in 2023, Seeking Safety. We have continued to facilitate the Truancy Termination Program and Youth Advisory Board. The agency was able to stabilize its staff base in 2023 and the turnover rate reflects a significant decline from 42.8% in 2021 to 33.4% in 2022 to 32.3% in 2023. The agency continues to use hiring platforms to help seek out qualified staff, and advocates for competitive wages and a rewarding workplace. YSB will continue to remain fiscally responsible in 2024 while providing exceptional services to the youth and families we serve.

#### Local Income Tax Special Purpose (LIT)

- LIT Special Purpose is YSB’s main funding source, funding the majority of operating and personnel costs for the organization.

#### Runaway and Homeless Youth (RHY) Grant

- The Runaway and Homeless Youth Grant is through the Federal Department of Health and Human Services, and fully funds the YSB Shelter Outreach and Safe Place Coordinator and one of the four counselors, along with a small stipend for training and programmatic expenses.

#### 1503 Youth Services Bureau Grant

- The 1503 YSB Grant is administered through the Indiana Youth Services Association, and funds approximately half of the fulltime Case Manager and a supplement to hourly shelter staff, with a small stipend for training and travel.

#### 1504 Safe Place Grant

- The 1504 Safe Place grant is administered through the Indiana Youth Services Association, and funds operational and outreach costs for the Safe Place Program.

#### Prevention Funds

- This funding is associated with the absorption of the four subcommittees formerly associated with the Asset Building Coalition: the Monroe County Youth Council, Building a Thriving Compassionate Community, the Bloomington Afterschool Network, and the Prevention General Fund.

#### YSB Donation Fund

- This donation fund is where all private donations made to YSB are deposited.

#### DCS Per Diems

- DCS per diems are a state reimbursement for all court ordered and DCS placed children. In 2023, YSB generated \$613.88 per child per day January to June and \$630.46 per child per day July to December. This source funds Local Income Tax (LIT) and is deposited directly into the general-purpose account for the county.

## Binkley House Emergency Youth Shelter Program Description

Binkley House Emergency Youth Shelter is the largest division of YSB. It provides short-term emergency residential care and crisis intervention for youth ages 10-17. The shelter offers emergency shelter for runaways, homeless youth, and youth in crisis or abusive situations at home. Binkley House is a licensed Emergency Shelter Care Facility and follows the guidelines set forth by the Indiana Department of Child Services. Binkley House Emergency Youth Shelter remains the only shelter program for youth in the region of Monroe and surrounding counties.

Binkley House is accessible for youth in need 24 hours a day. The exterior outer doors are locked to ensure the safety of staff and residents. However, our internal doors are never locked. We do not utilize locked rooms, or seclusions and restraints on our shelter residents. The shelter program, known for its “Five Finger Agreement” (Safety, Responsibility, Respect, Following Directions, and Effort) relies on an incentive-based, trauma informed approach to support and encourage positive behavior choices while ensuring safety for all. Our staff can enforce the behavior modification program by recognizing and rewarding positive behavior and helping residents find ways to work on areas of behavior that may need to improvement without the fear of punitive restrictions.

Binkley House provides services such as counseling, educational support time, supervised recreation, transportation to and from school and appointments, as well as referrals to a variety of agencies for related services. YSB also assists youth in transitional services during their stay at the Binkley House Youth Shelter. These include daily living skills, transition to long-term residential care, transition from long-term residential care back home, and short-term aftercare counseling. The youth shelter program also offers services to youth in the foster-care system to reduce multiple foster-care placements.

Referrals to the youth shelter program can occur in several ways including from social service agencies, parents, or directly from the youth themselves. The Youth Services Bureau of Monroe County never charges a fee for the services provided for youth accessing Safe Place or parental (voluntary by youth agreement) admissions.

## Binkley House Emergency Youth Shelter Referrals

In 2023, we received a total of 562 inquiries (referrals) for service, an average of 47 calls per month, and an increase of 6% from the previous year. The calls we receive are usually during a time of crisis for which the callers (youth, family member, and legal guardian) are seeking immediate emergency shelter services.

<b>Inquiries for Service by Referral Type</b>	<b>Total</b>
Safe Place	31
Parental	205
Probation	27
DCS	299
Police	0
<b>Total Referrals</b>	<b>562</b>

In 2023, YSB of Monroe County experienced a significant increase in Parental referrals. Safe Place referrals remained the same and there was a slight decline from all other referral sources. Parental referrals increased by 30% and Safe Place referrals remained 6% of total referrals. DCS referrals decreased by 1% and probation referrals decreased by 27%.

### Services Provided in Binkley House Emergency Youth Shelter

In 2023, we were able to provide safe shelter accommodations a total of 138 times to 126 individual youth. Binkley House served 83 youth who had never before had contact or placement with Binkley House Youth Shelter, a 2% increase from 2022. The number of non-recidivists served is approximately 66% of our total population served. When counting the total number of service days given to all youth in 2023, we provided 2,381 real-time<sup>5</sup> days of service.

<b>Total</b>	<b>2,381</b>

<sup>5</sup> "Real-time" means that day in and day out are counted.

During 2023, the average length of stay for a youth in the shelter was approximately 17.25 days, an increase from 2022 when the average length of stay was 14.67 days. In 2012, a legislative change occurred limiting the length of stay for a youth at a licensed emergency youth shelter in the state of Indiana to a maximum of 20 days<sup>6</sup> (without a waiver), regardless of placement type.

The Binkley House Emergency Youth Shelter program serves youth from various counties across the state. Since we are located in Monroe County, it is of no surprise that the majority of the youth we serve reside in Monroe County. It is important to note that many of the families we serve are transient, having lived in Monroe County either in the past or currently. Monroe County is known for its many resources and families often gravitate to this exceptional community.

<b>Youth County of Residence</b>					
Monroe County	Lawrence County	Morgan County	Other Indiana County	Out of State	Total

Our Counselors and Case Managers provide clinical and supportive services daily for each Binkley House resident. In some circumstances, the contact with youth is much more extensive, based on individual needs and support for success.

Youth Services Bureau staff identified and reported 40 suspected cases of physical abuse, sexual abuse, and/or neglect to the Indiana Department of Child Services-Child Protective Services unit. This is approximately 32% of youth served in 2023. The suspected reports of abuse and/or neglect are a result of youth self-report, questionable marks/bruises, as well as any observed abuse by a guardian or others towards the youth while in our care.

We know it is best practice and vital for youth and families to engage in counseling while experiencing family crises. The (clinical) behavioral health service component (clinical counseling/case management) is not funded through the Indiana Department of Child Services contract for Emergency Shelter Care. While we seek grants to aid this critical link in services to facilitate improved family functioning, we would be remiss if we did not thank Monroe County for continuing to support our services.

<sup>6</sup> Per Dept. of Child Svc. rules, day out does not count, therefore real-time days are 21 in length.

## **Binkley House Emergency Youth Shelter Placement Types**

**Placement Types** – Binkley House codes placements by “types,” reflecting who is responsible for placing the youth in the shelter program. In some instances, the youth’s placement type may change during their stay, which indicates a shift in the party responsible for the youth’s stay in the program. In 2023, **12** youth changed placement type during a single stay.

1. **Safe Place** – Youth initiate the desire to come for services at Binkley House Emergency Youth Shelter. There is no cost to the family for this service type. Length of this placement cannot exceed 72 hours but may become another placement type if continued services are requested.

**16 youth; 12% of the total shelter population (31 service days).**

2. **Parental** – A parent or legal guardian contacts Binkley House Emergency Youth Shelter requesting youth services. In this instance, the youth must voluntarily agree to come to Binkley House Emergency Youth Shelter for short term placement. Federal and state funding cover parental placement costs regardless of the youths’ county of origin. There is no cost to the family for this service type.

**74 youth; 54% of the total shelter population (947 service days).**

3. **Probation** – Through a court order, a youth is placed at Binkley House Emergency Youth Shelter to prevent delinquent behavior and promote pro-social behavior. Youth are accepted as court ordered placements only if they pose no safety risk or harm to self or others. Results of court involvement typically come from truancy (not attending school consistently), return to the community from another environment, or preventative (assist youth in remaining free from negative influences until the youth can make better choices). YSB submits per diem claims to Indiana Department of Child Services (per assigned rate). This is not billed to the family by YSB.

**9 youth; 7% of the total shelter population (151 service days).**

4. **Department of Child Services** – When a youth is a ward of DCS or is in an emergency situation in which the DCS Case Worker determines that removal from a home is needed, a youth can be placed at Binkley House Emergency Youth Shelter. Typically, we host youth who are waiting for their homes to return to a safe level (after DCS interventions have been put in place), are awaiting foster care placement, or are in transition between homes. YSB submits per diem claims to Indiana Department of Child Services (per the assigned rate). This is not billed to the family by YSB.

**39 youth; 28% of the shelter population (1252 service days).**

5. **Police Hold** - To assist local law enforcement in returning to serve the public, there are occasions where Binkley House Emergency Youth Shelter will house a youth until a parent can be located to take custody of their child. These instances typically occur when law enforcement has come into contact with a youth and a parent/guardian cannot immediately respond to law enforcement to retrieve their

child. These placements are typically less than 24 hours in duration. If a parent cannot be located within 24 hours, Binkley House contacts the Department of Child Services to assist in family locating.

**0 youth; 0% of the total Shelter Population (0 service days).**

## 2023 Placement Types

### Placement Types

Parental and Safe Place (at-risk or actively RHY youth) totaled 66% of youth serviced in Binkley House in 2023. Safe Place youth had an average length of stay of 2 days. Parentally placed youth had an average length of stay of 12.8 days. Youth placed in Binkley House by the Department of Child Services (DCS) totaled to 28% of youth served in 2023. DCS placed youth totaled 1,252 service days, an average length of stay of 32 days, indicating longer stays for this placement type. Court-Ordered youth placed in 2023 totaled to 7% of the population served, for a total of 151 service days, and an average length of stay of 16.8 days.

### Gender of Youth in Program

Binkley house is a co-ed shelter with separate male and female sleeping wings attached to the common areas. Regardless of biological sex, youth may choose how they identify at YSB. We served a total of 56 female and 60 male identifying youth, and 10 youth identifying as transgender.

### Age of Youth Receiving Services

Binkley House serves youth from 10 to 17 years of age. In 2023, the majority of our youth were age 14-17, consistent with previous years.

### Program Coordinator Report

In 2023, the Youth Services Bureau of Monroe County has continued to meet the needs of those we serve. YSB seeks best practices to offer quality services to our local community youth and families. Our largest program, offering support 365 days a year to youth and families, is the Binkley House Emergency Youth Shelter. The Youth Services Bureau of Monroe County also hosts a local Safe Place program serving youth in multiple counties providing a safe alternative to running away and a way to access to help while in crisis. In 2023, our programs have served over 125 youth and their families while providing safety, stability, and crisis support.

In 2023, the Binkley House Emergency Youth Shelter continued to operate essential services without interruption. Programming for our Binkley House Emergency Youth Shelter is centered on supporting the current evidence-based practice used at the Youth Services Bureau, the ARC Framework (Attachment, Regulation, and Competency). ARC focuses on normative childhood development, traumatic stress, attachment, assessing risk, and utilizing resilience. In 2023, the Program Coordinator created a Programming Review Committee to review and update the behavior modification program which is used daily with all residents. Over six weeks the committee reviewed daily community outings, point sheets used to promote positive behavior choices, and the best ways to provide residents with clear behavior expectations while staying at the shelter. The Binkley House Emergency Shelter program provided daily routines, service learning, physical recreation, creative exploration, educational development, and competency and skill-building for all residents. Daytime programming is structured to provide residents with experiences that enhance and build social competencies and focus on their existing strengths.

The Binkley House shelter focused on first ensuring basic needs were met, provided normalcy in routine, and a safe trauma-informed environment for residents. Residents began the daytime programming schedule by visiting local parks or internal activities, such as physical games in the YSB gymnasium as physical recreation is integral to the daily programming in the Binkley House emergency shelter. Residents are encouraged to remain active outside of set physical activity calendar events, as well as over weekends and holiday breaks through community outings and outdoor games. Direct-care staff also facilitated programming weekly with varying components, such as exploring careers, current events, educational films, and creative activities.

Throughout 2023, residents enjoyed visits to local museums like the Monroe County History Center, Wonderlab Science Museum, and the IU Eskenazi Museum of Art. Residents also engaged weekly in both service learning

with Mother Hubbard's Cupboard food pantry, and learning how to utilize our local Monroe County Public Library and all the services it offers. In the spring and summer of 2023, clinical and direct-care staff worked to continue the YSB garden and gardening program to teach both hands-on skills and teamwork to keep up with all the daily tasks. In the fall of 2023, residents were able to continue to attend soft skill sessions working with horses at PALS (People and Animal Learning Services) learning how to put patience, following directions, and basic animal care into practice once a week.

Binkley House residents who are enrolled in local schools can maintain their attendance while shelter residents who are not able to attend local schools, participate in daily educational programming led by our YSB Case Manager. During this time, residents work on assigned homework from their school system or are provided with skill level-appropriate curriculum. Guidance and assistance for completing assignments are provided by both direct-care staff and the YSB Education Case Manager. Residents who have graduated or completed the Indiana HSE (High School Equivalency), are provided secondary education options. Depending on the resident, this may be supporting them in acquiring practical experience, seeking to secure employment while reintegrating back into the community, or prepping for other educational programs they might be interested in pursuing. Educational periods during summer and school breaks include experiential learning, such as science-related projects, creative activities, and educational field trips. This summer residents were able to visit a honeybee farm, the Indianapolis Children's Museum, the Feline Rescue Center, and many local nature centers.

In 2023, the YSB Clinical team and direct-care staff facilitated the after-school psycho-educational component, "Focus" providing residents with pro-social and positive youth development-focused programming throughout the year. This shelter component covers topics such as nutrition, self-esteem building, healthy relationships, anger management, conflict resolution, ATOD (alcohol, tobacco, and other drugs), and the Safe Place program. Clinical staff presented topics through creative activities such as vision boards, cooking meals, and team skill-building. Our YSB Clinical staff also led a daily life education hour during the week. Our clinical team provides education, learning, and exposure to local supports and agencies like Work One job support and local Fire Stations residents can access, supporting skills develop toward independence and resiliency.

For direct-care staff, the agency continues to advance the training and orientation for incoming and existing staff. Educational opportunities and training took place through the year to enhance skills and encourage team members to embrace learning opportunities. The program continues to be a recognized model for emergency shelter care under the standards of the Department of Child Services, Indiana Youth Services Association, and the Family and Youth Services Bureau (FYSB).

Since 1987, the Youth Services Bureau of Monroe County has operated a local Safe Place program. This crisis intervention program opens the doors and expands access to the Binkley House emergency shelter as well as educates local community members and youth on how to get help when a child is in crisis. In 2023, the local Safe Place program expanded to cover Brown County while continuing to serve Monroe, Owen, and Greene Counties as well. This past year, the local Safe Place program attended many local events hosted by the City of Bloomington Parks and Recreation Department, sponsored local community events, provided resources to schools and family service providers, as well as raised awareness both through digital and in-person outreach efforts. Overall, our outreach efforts connected to more than 260,000 individuals. We continue to increase education and awareness surrounding the dangers of running away while sharing alternative options through providing materials and training to local schools and youth professionals. The program continues to exceed the standards set forth by the Indiana Youth Services Association (IYSA), National Safe Place Network, and the federal Runaway and Homeless Youth agency.

The Youth Services Bureau of Monroe County has also continued to participant in the Juvenile Detention Alternatives Initiative (JDAI). The objectives of the JDAI workgroups are to collectively safely reduce the number of youths ordered to juvenile dentition facilities. The Program Coordinator was actively involved in the

Alternatives to Detention workgroup serving Vigo County's juvenile detention center. Other designated YSB staff participated in other JDAI committees including the Data and Steering Committee groups throughout 2023.

Looking forward to 2024, the Youth Services Bureau of Monroe County will continue to provide support to youth and families in need while continually working to break down barriers for youth to achieve their goals and remain in stable environments. YSB will continue to advocate for the youth population we serve, provide best practices, and research programming options that meet the needs of the community to expand the services we offer to all families in our community.

### **Binkley House Emergency Youth Shelter Report**

In 2023, the Binkley House Manager focused on a variety of goals to ensure quality services were provided to the youth residing in the emergency shelter. These goals center on the quality of daily shelter operations, strengthening lines of communication, and improving employee training. As an agency, we worked together to maintain consistency and to ensure all daytime programming, educational, and psycho-educational components were met. Binkley House staff, Prevention, and Clinical teams continued to collaborate on special on-site projects residents could enjoy such as continued development of the summer garden project, cooking and menu planning activities, intensive art projects, resident-inspired Focus groups, and daily physical activity.

The agency has worked to streamline the hiring and training process focusing on consistency, thoroughness, and ensuring employees feel competent and adequately trained. We have identified training mentors among the existing full-time staff to lead the new-hire floor training process. As an agency, we have resumed in-person training for all staff followed by competency quizzes to ensure retention of materials. Direct care staff continued to embrace the ARC framework (Attachment, Regulation, and Competency) as our evidence-based practice, as well as incorporating Non-Violent Crisis Prevention Intervention (CPI) skills for daily milieu management. As shift supervisors, the full-time Residential Coordinators continue to hold monthly meetings with the Binkley House Manager and Program Coordinator. In addition to regular supervision meetings for direct care, organized group meetings specifically for direct care staff to address shift work process, communication, crisis intervention, programming, and milieu management also occur monthly. These meetings have allowed direct care staff to come together as a team, learn, and problem-solve with the leadership team.

In 2023, we continue to use our reward-based behavior modification system, alongside our revised daily point sheet, to increase incentives promoting positive outcomes for all residents. Every day residents work towards reaching up to level 4 resulting in earning daily tokens to purchase items from the shelter store or earn a token outing with staff. Token outings can vary from going to the movie theater, getting a haircut, or enjoying a meal off-site from a local restaurant. In 2023, the shelter store was revamped with new and improved items for "purchase" with daily earned tokens. Many residents enjoyed the opportunity to shop with their tokens for fun tangible items such as a new wallet, watch, cologne, craft kits, fidget toys, journals, hair accessories, or jewelry. Many residents choose to shop for family members or friends that they may not be able to see during their shelter stay.

In addition to structured daytime programming and daily psycho-educational component, the residents enjoy off-site group recreational outings. We were able to visit Indiana Memorial Union for bowling and billiards and attend Indiana University sporting events such as the Nationally ranked Men's & Women's Basketball teams, YMCA, Indiana University Cook Hall, Monroe County Public Library, The Warehouse, the WonderLab, fishing excursions, and numerous local parks.

In 2023, the agency provided many items for residents ranging from clothing, shoes, toiletry kits, duffle bags, blankets, holiday gifts, book bags, and school supplies. Our staff worked enthusiastically to provide impressive holiday meals, decorations, and gifts to help residents feel more at home during difficult times in the year. In 2024, the program will continue to refine practices to best meet the needs of the populations we serve.

### **YSB/Safe Place Outreach Manager Report**

Safe Place is a nationwide youth outreach and prevention initiative dedicated to providing immediate assistance and safety for young individuals in need. Functioning as a community-based program, Safe Place designates various businesses and organizations as official Safe Place locations, ensuring the availability of help for youth in communities across the United States. Locally, this model is implemented and overseen by the Youth Services Bureau of Monroe County (YSB), specifically catering to the youth in Monroe, Owen, Greene, and recently Brown Counties.

Our local Safe Place program was accessed by 31 youth in 2023 via a Safe Place site. Based on the specific situation, the youth may be provided with referrals, counseling, shelter placement, and/or follow-up care. Of those 31 youths initiating Safe Place services, 24 youth-initiated shelter services, resulted in 12 overnight placements. Additionally, four youth called the shelter asking about Safe Place services but did not access shelter care, one youth resolved the issue at a Safe Place site, one youth was referred to another agency, and one youth reunited with a guardian without services.

Annually, the Safe Place/YSB Outreach Manager conducts educational initiatives for both youth and adults. This includes delivering presentations and participating in local schools, community events, and training sessions. Additionally, the coordinator hosts bi-weekly educational hours at the youth shelter, sponsors pro-social activities, and engages in community and online advertising to promote awareness and understanding. In 2023, we were able to reach 29,826 youth through in-person and online presentations. Our Safe Place Programs school announcement and video public service announcements (PSA) reached 37,220 youth. The outreach opportunities educate youth on what the Safe Place program is, how it can help, how to access the program, and the services a youth can receive. Safe Place continues to partner with Middle Way House in the Building Healthy Relationships curriculum in local schools. Community members and guardians are also educated on the program and encouraged to continue a cooperating role in helping youth in crisis. In 2023, a total of 23,563 Safe Place Outreach cards were distributed to youth in Monroe, Owen, Greene, and Brown Counties.

YSB works with EffectTV (formerly Comcast) to air a National Safe Place commercial tagged with local YSB information. The commercial airs on networks with youth and families as target audiences. The Safe Place commercial was viewed at a rate of 95% of 54,454 viewers. Safe Place also advertised with National CineMedia (NCM), LLC in both Bloomington AMC movie theaters in addition to online ads through streaming services. A Safe Place commercial with local Youth Services Bureau information played before every movie rated PG or higher and, in the lobby, every 12 minutes. In 2023, YSB ran two campaigns during the summer and holiday months. The combined campaigns delivered a total view-through rate of 98% of 85,179 impressions.

Safe Place procures billboard advertising through Lamar Outdoor Advertising as part of our diverse outreach strategy. Safe Place scheduled one billboard in Monroe and Greene County for the full duration of 2023, weekly projected impressions totaled 57,500. In Owen County, Safe Place sponsored two movies at Tivoli Theater. In

Monroe County, Safe Place sponsored two seasonal banners that were located at two public pools during the summer months.

In 2024, the Safe Place program will continue expanding outreach and education efforts with youth and the communities it serves. Opportunities to participate in community events and sponsorships continue to be explored. The YSB Shelter Outreach and Safe Place Manager will be working to increase our social media presence and to make more local connections and sponsorships in rural Brown County.

### **Clinical Coordinator's Report**

YSB Clinical team members delivered short-term counseling and case management to the 138 placements in Binkley House Emergency Shelter in 2023. In addition to providing aftercare sessions to 24 youth, all residents received follow-up phone calls at regular intervals from the Educational Case Manager. We received 72 inquiries in 2023 for community-based counseling services. The team was also able to provide counseling to a total of 45 community-based clients, over a 300% increase from 2022. Clinical team members were also utilized in the Safe Place program to meet with youth, offer support and make appropriate referrals. Within Binkley House shelter, Clinical staff facilitated periods of daytime programming, focused on mindfulness, life skills, nutrition and wellness, and college and career opportunities. After-school psycho-educational programming is also facilitated by Clinical staff three days a week, which covers topics such as conflict resolution, self-esteem, and healthy relationships. The entire YSB Clinical team increased their ability to serve community-based clients, worked to streamline referral processes, and focused on macro-level work for the agency to produce quality data.

Our ability to provide care for youth and families is enhanced when we have strong relationships with community partners. The team continued partnerships with the Department of Child Services and Monroe County Juvenile Probation in 2023. YSB counselors accompanied residents to court and team meetings as needed. Members of the team also interfaced with local and regional school systems and staff about individual residents and larger community trends. It should be noted that the Clinical team also interacted with numerous DCS offices across the state to assist youths from many different counties in Indiana. The agency, typically Clinical staff, continued to also utilize Bloomington Meadows Hospital for services when mental health needs were beyond the scope of YSB services. Community partnerships were also instrumental in helping the Clinical team conduct educational and engaging programming for residents. Some of these community partners include Mother Hubbard's Cupboard, IU Biology Department, City of Bloomington Fire Department, Work One, and Positive Link.

YSB continued to utilize graduate interns during 2023 as well. This year, YSB hosted four graduate-level interns. Three of these interns were from the IU School of Social Work, and one was a Ph.D. student from the IU Department of Psychological and Brain Sciences. Graduate interns not only gain a solid understanding of how YSB functions and provide services to youth and families, but they also participate in observation, shadowing, and processing YSB counseling services. Graduate interns also spend time place in Binkley House, assisting in programming, milieu management and administrative work. These Clinical interns work with individual residents, conduct family sessions, and run groups for programming as well. All graduate intern responsibilities are reviewed by the Clinical Coordinator.

Three YSB Counselors obtained their Licensed Social Worker (LSW) certification in 2023 and continue to obtain the necessary amount of continuing education units (CEUs) to maintain licenses. Additionally, the Clinical team participated in and facilitated a variety of professional development opportunities. In 2023, the team participated in several conferences and trainings, both virtually and in-person, to help further their learning and engagement with the surrounding community. The Clinical Team participated, presented, and/or facilitated at the following conferences and events: the 2023 RHY National Grantee Training, the 2023 Monroe County Childhood Conditions Summit (MC3), Seeking Safety training, Positive Action Curriculum for the Truancy program, 2023 CPI Certified Instructor's Conference and Training, a Five-Day Motivational Interviewing training, numerous virtual and in-person CEU trainings, as well as the Indiana Association of Resources and Child Advocacy (IARCA) Conference.

### **Programming Facilitated by Clinical Staff**

The Seeking Safety program is a skills and support group for teenagers who have experienced trauma or substance use in any form. YSB continues to adjust the program after running two rounds of group to increase enrollment and recruitment into the Seeking Safety group. YSB assigned counselor and the Clinical Coordinator also launched the Youth Advisory Board in May of 2023, under the guidance of YSB Executive Director. This board, populated by youth who have previously stayed in the Binkley House Shelter, met for seven months from May 2023 through November of 2023. Youth who participated received an incentive in the form of a gift card for their time in helping to provide valuable feedback on how YSB can improve its shelter services. The assigned YSB counselor and the Clinical Coordinator worked with this board to put together a PowerPoint presentation of their feedback which was presented to the YSB leadership and admin team.

In the second year of the Truancy Termination Partnership Program (TTPP), structural changes were made to operate in a group format, instead of individual meetings and interventions. This new format has allowed for a significant increase in the number of children and families who were referred to and could participate in the program. In addition to the TTPP groups, one for middle schoolers and one for high school students, the TTPP program also offers therapy and case management services to those families in need. In the fall of 2023, the Richland Bean Blossom School Corporation (RBBSC) was included, in addition to the Monroe County Community School Corporation (MCCSC). Two YSB counselors also acted as facilitators for the Strengthening Families Coping Resources (SFCR) family group. This family therapy intervention was conducted in conjunction with South Central Community Action Program (SCCAP) facilitators and saw two families complete the entire program. The Clinical Services Case Manager worked closely with YSB counselor assigned to the TTPP program to assist in managing referrals, scheduling intakes and facilitating the two groups. The Clinical Services Case Manager also assisted the YSB assigned counselor in running the Seeking Safety groups this year as well.

In 2024, the Clinical team will continue to provide crisis intervention services, and counseling services and seek to minimize harm and prevent re-traumatization. Looking forward, we hope to continue our efforts to expand the services available to community youth and families. Clinical staff will continue to be an integral part of seeing the further development of YSB programming, including addressing youth substance abuse through the Seeking Safety program, truancy, family engagement and a parenting group. It continues to be a mission for the Clinical staff to advocate for changes within and across organizations, communities, and systems that affect the children and families we serve.

## **Prevention Coordinator Report**

In 2023, the Youth Services Bureau offered Prevention programming for the 7th year, serving Monroe and surrounding counties. YSB's Prevention Program plays two roles – mitigating negative childhood conditions across the county, and strengthening safe, stable, nurturing relationships and environments (SSNREs) for youth and adults. This dual work connects all of YSB's Prevention Subcommittees: Building a Thriving Compassionate Community (BTCC), Monroe County Youth Council (MCYC), the Bloomington AfterSchool Network (BASN), Indiana Youth Institute (IYI) Monroe County Youth Worker Cafes, the Monroe County Childhood Conditions Summit (MC3), and the YSB Youth Advisory Board.

### **Community Collaborations**

Each of YSB's Prevention Subcommittees utilizes a collaborative model, bringing together individuals and organizations to share their work, and to create something greater than the sum of their parts. Cultivating partnerships across sectors, experiences, identities, organizations, ages, and more, ensures that YSB's Prevention is grounded in a diverse set of skills, resources, and capacities. While partnership efforts are broadly sown, the greatest focus remains on connections with youth, youth workers, and cross-sector partners who share YSB's values.

In youth-led partnerships during 2023, the Youth Services Bureau stewarded the Monroe County Youth Council (MCYC), the YSB Youth Advisory Board (YAB), and in-shelter Prevention Programming with residents. MCYC – a cohort of high-school-age teens across MCCSC & RBB schools – met bimonthly during the school year, hosted sessions on building youth leadership skills and opportunities for community engagement and established Policy and Mental Health Subcommittees to pursue specific areas of interest. Additionally, MCYC's annual Global Youth Service Day project supported the Binkley House shelter, with more than 15 Monroe County teens coming together to rebuild garden beds and plant a variety of herbs, flowers, and vegetables to make the shelter grounds more welcoming for residents. Informally, 2023 also saw the youth council thrive as a space fostering caring relationships across different schools and grades. It was not unusual to see upperclassmen supporting underclassmen, or to hear youth from different schools comparing experiences and sharing their approaches for navigating stress, conflict, or harm. While MCYC created space for youth across the community, Prevention invested in specifically supporting YSB residents by laying the programmatic foundations of the Youth Advisory Board, collaborating with YSB's Clinical Team to implement it, and coordinating weekly Prevention programming within Binkley House. These collaborations helped bridge the gap between intervention & prevention programming at YSB and provided residents an opportunity to engage with topics like housing, bystander intervention, job searching, and healthy hobbies.

Throughout 2023, YSB's Prevention Program also continued investing in supportive spaces for Monroe County youth workers so they are well-equipped to support Monroe County youth. Monthly Bloomington Afterschool Network meetings brought together staff representing community organizations including Kid City, Monroe County Public Library, Boys and Girls Club, Girls Inc, WonderLab, Banneker Center, and more. During meetings, individuals shared resources on everything from hiring practices to communications, program curriculum, policy & practice, and de-escalation techniques. Similarly, YSB's ongoing partnership with Indiana Youth Institute to host local Youth Worker Cafes offered space in 2023 for youth workers to come together, learn from one another, and dig into exciting topics like 'Collective Care.' Ultimately, the resource sharing present in both youth worker-focused subcommittees represents a meaningful break with norms of isolation, scarcity, and competition that all too often get in the way of supporting youth and families.

Lastly, YSB Prevention continued to steward Building a Thriving Compassionate Community (BTCC), a cross-sector network of organizations and individuals working to build safe, stable, nurturing relationships and environments together. In 2023, BTCC held Quarterly Gatherings, hosted communities of practice with focuses

like Primary Prevention, Power Analysis, & Implicit Bias, supported advocacy efforts of community partners, and worked to change local norms & narratives. Recognizing that YSB’s work of improving childhood conditions, while grounded in Monroe County, is also impacted by state-level conditions, BTCC became a State Leadership Team partner of Indiana’s DELTA Grant from the CDC in 2023 and expanded to offer training and resources to surrounding counties.

## **Community Education**

Alongside community collaboration, in 2023 YSB’s Prevention program continued to recognize the importance of a robust web of community education. Enabling individuals to share their skills and knowledge builds a supportive environment where staff, youth, and families are all recognized for their valuable experience and expertise and are equipped to handle whatever may arise. Training, resource sharing, and other educational opportunities were offered all year within YSB, and to external partners and community members.

For Youth Services Bureau staff, Prevention ran monthly Values Day meetings, facilitated quarterly trainings on “Bias, Values, and YSB”, and brought resources from conferences and trainings back to staff.

In the community at large, Building A Thriving Compassionate Community ran more than 45 trainings and workshops throughout the year, including sessions on implicit bias, trauma, collective care, dominant narrative, de-escalation, primary prevention, and more. Several of the trainings also included ‘training-of-trainers,’ modules, allowing community partners in Terre Haute, Michigan, and Marion County to bring Monroe County’s valuable work more broadly to their organizations and communities as well. BTCC also expanded education and engagement by building “102s” that more deeply focused on implementation, and by committing to sharing other organizations’ training opportunities when unable to offer our own. In addition to training and workshops, Prevention Subcommittees shared countless resources over a variety of communication platforms to work on changing community narratives and norms.

Lastly, YSB hosted the 8th annual Monroe County Childhood Conditions Summit (MC3), exploring the theme of *Mattering and Belonging*. In 2023, MC3 returned to the Convention Center for the first time since the pandemic began, offered more than 15 in-person sessions, included representation from more than 70 organizations, and hosted over 150 participants. With a strong focus on accessibility, MC3 offered attendance free of charge, provided meals throughout the day, offered Continuing Education Credits, ensured audio-visual support during sessions, and more. With an eye on equity, MC3 focused on centering presenters of color, individuals with disabilities, Monroe County youth, community members with lived experience of poverty, and individuals from different organizations and sectors. Additionally, knowing that the work of improving childhood conditions doesn’t end when the Summit does, MC3 partnered with Indiana Youth Institute to offer a follow-up Youth Worker Café in February of 2024 and has continued sharing resources from MC3 with participants in months following the Summit, and has extended invitations for community members to continue helping shape the Summit for the coming year.

## **Prevention’s Role in Monroe County**

The past several years have been challenging in our community – managing the impacts of COVID-19, learning disruptions in schools, inflation and economic instability, challenges to safety for LGBTQ+ youth and youth of color, and increased norms of tolerance for violence. In this moment, we must simultaneously honor that crisis intervention provides safety in the immediate *and* that we are responsible for moving upstream and preventing harm to youth and families in our community. Youth Services Bureau’s robust and unique pairing of intervention and prevention services offers a comprehensive model for supporting youth and families across Monroe County, and the state at large.
